The Transatlantic Constitution Mary Sarah Bilder, 2008-03-31 One of the more significant recent pieces of scholarship in this area essential reading for all students of early America *Journal of American History* Departing from traditional approaches to colonial legal history Mary Sarah Bilder argues that American law and legal culture developed within the framework of an evolving unwritten transatlantic constitution that lawyers legislators and litigants on both sides of the Atlantic understood The central tenet of this constitution that colonial laws and customs could not be repugnant to the laws of England but could diverge for local circumstances shaped the legal development of the colonial world Focusing on practices rather than doctrines Bilder describes how the pragmatic and flexible conversation about this constitution shaped colonial law the development of the legal profession the place of English law in the colonies the existence of equity courts and legislative equitable relief property rights for women and inheritance laws commercial law and currency reform and laws governing religious establishment Using as a case study the corporate colony of Rhode Island which had the largest number of appeals of any mainland colony to the English Privy Council she reconstructs a largely unknown world of pre Constitutional legal culture The book is rich in social history as well with the evolving status of women and institutional religion providing much of the legal grist **Choice** **Farmers and the State in Colonial Kano** Steven Pierce, 2005-10-26 In *Farmers and the State in Colonial Kano* Steven Pierce examines issues surrounding the colonial state and the distribution of state power in northern Nigeria Here Pierce deconstructs the colonial state and offers a unique reading of land tenure that

challenges earlier views of the role of indirect rule According to Pierce land tenure was the means the colonial government used to rule the local population and extract taxes from them but it was also a political logic with a fundamental flaw and a Western bias In Pierce's view colonial representations of land tenure claimed to reflect precolonial systems of rule but instead fundamentally misrepresented farmers' experience He maintains that this misrepresentation created a paradox at the core of the colonial state which persists into the present and helps to explain contemporary problems in African states In this sweeping and eloquent account of African history readers will find an extended genealogy of land law and taxation as well as rich material on the power of indigenous knowledge and the persistence of colonial systems of rule *Women in the Qur'an* Asma Lamrabet, 2016-07-25 Today the issue of Muslim women is held hostage between two perceptions a conservative Islamic approach and a liberal Western approach At the heart of this debate Muslim women are seeking to reclaim their right to speak in order to reappropriate their own destinies calling for the equality and liberation that is at the heart of the Qur'an However with few female commentators on the meaning of the Qur'an and an overreliance on the readings of the Qur'an compiled centuries ago this message is often lost In this book Asma Lamrabet demands a rereading of the Qur'an by women that focuses on its spiritual and humanistic messages in order to alter the lived reality on the ground By acknowledging the oppression of women to different degrees in social systems organized in the name of religion and also rejecting a perspective that seeks to promote Western values as the only means of liberating them the author is able to define a new way One in which their refusal to remain silent is an act of devotion and their demand for reform will lead to liberation Asma Lamrabet is a pathologist in Avicenna Hospital Rabat Morocco She is also an award winning author of many articles and books tackling Islam and women's issues Myriam Francois Cerrah is a writer and broadcaster whose articles have been published in the Guardian Salon and elsewhere **A Woman's Kingdom** Michelle Lamarche Marrese, 2002 Marrese traces the extension of noblewomen's right to property and places this story in the broader context of the evolution of private property in Russia before the Great Reforms of the 1860s **BOOK JACKET** **British Women's History**, 1996 This is one of a series of bibliographical guides designed to meet the needs of undergraduates postgraduates and their teachers in universities and colleges of further education All volumes in the series share a number of common characteristics They are selective manageable in size and include those books and articles which are considered most important and useful All are edited by practising teachers of the subject in question and are based on their experience of the needs of students The arrangement combines chronological with thematic divisions Most of the items listed receive some descriptive comment *Woman Through the Ages* Emil Reich, 1908 [Law and Identity in Colonial South Asia](#) Mitra Sharafi, 2014-04-21 This book explores the legal culture of the Parsis or Zoroastrians an ethnoreligious community unusually invested in the colonial legal system of British India and Burma Rather than trying to maintain collective autonomy and integrity by avoiding interaction with the state the Parsis sank deep into the colonial legal system itself From the late eighteenth century until India's independence in

1947 they became heavy users of colonial law acting as lawyers judges litigants lobbyists and legislators They de Anglicized the law that governed them and enshrined in law their own distinctive models of the family and community by two routes frequent intra group litigation often managed by Parsi legal professionals in the areas of marriage inheritance religious trusts and libel and the creation of legislation that would become Parsi personal law Other South Asian communities also turned to law but none seem to have done so earlier or in more pronounced ways than the Parsis
