Here Comes Tomorrow Maurice L. Siegel,2022-01-13 The information about the book is not available as of this time

Potpourri Maurice Siegel,2017-06-20 What is a word I mean to that brain of ours a sound distinctly different from tree branches in motion or those of leaves hanging down uncertain what to do next We get simple instructions from tree noises except for getting out of the way should one of them collapse Not much information was gathered after a life of staring up at trees in awe not even a smile The reason is obvious We have to be told what a word is when struck on the ears for the first time generally intended to identify some object that can bring danger or caring or usefulness After that identification its clear sailing The word grows like the tree does with additional information tacked on to get you to laugh or cry or shrug or wonder or turn away unconcerned Unless the word is attached to other words words lurking about that can be hooked up with ease Something new will happen The mind can become busy directing the body to cause something to come about Something to come about comes in two sizes The one size we know the best is an action to change what is around our body directed by needs and wants It is the second one coming about that has no outward change of body direction but does something special to the mind as to be carried around by that mind for a lifetime if not longer It is an amazing sense of ones feelings without motion to the body rising out of words clustered together in certain ways that words can come together This miracle of the human animal creates the feelings of a satisfaction never to be known to any other of the animals also fighting for survival This sensation strikes deeply within oneself and is called by names we all recognize There is poetry prose and plays to mention the few that bring me to a sense of emotion that otherwise would lie forever dormant in the rush through lifes practical requiring needs to keep oneself available for more gathering up of practical needs My break with that cycle as life permitted is what is expressed as best as I could in this book as I wandered in and out of one act plays poems and essays all discoveries I had a chance to taste while the tasting was good

The Layman Speaks Maurice Siegel,2020-12-17 We all live in a world to be seen from the eyes of a layman searching out the wonders that surround each of us In the end we are all a layman to what has been compiled and collected and discovered and analyzed for the opportunity to grasp whatever possible between a confused birth arrival and the awaiting departure The Layman Speaks is composed of the three art forms intended for the creation predominately of feelings through poems essays and plays

THERE IS NO SAFE PLACE NOR EVER CAN BE I WONDER WHY Maurice Siegel,2015-09-24 Why does poetry continue to exist It does not deliver information to solve problems or assist in helping with problems Facts have no usefulness for rhyming couplets We live our lives in comfort when we solve tangible problems effectively Facts usually have some built into it reward system That is until we seek a closer communion with ourselves living in a world made to be separate from us It is a world where not seeking of competitive advantages that emotional world within leads to being struck by some indefinable satisfaction to be trusted It brings approval for the arts in their many forms For me the most beautiful of them is poetry making words when read into
