Haen,1983-01-01 Text to Reader seeks to find a critical approach that links a novel s form to its socio cultural context Combining elements from Iser s reception aesthetics speech act theory and Goffman s frame analysis this book starts from the assumption that a reader has certain conventional expectations with regard to a novel and then goes on

to examine how violations of these expectations rule the reader's relationship to the novel. The theory sketched in the first chapter is then in four subsequent chapters applied to *The French Lieutenant's Woman* by the English author John Fowles, *Letters* by the American John Barth, *Libro de Manuel* by the Argentinean Julio Cortázar and *De Kapellekensbaan* by the Flemish novelist Louis Paul Boon. The particular form each of these novels takes is analyzed as correlative to that novel's communicative function. This book will be of interest to comparatists, students of English and American literature and the literatures of Latin America and the Low Countries.
