

## **Requiring More Fuel-Efficient Cars**

We live in tough times. Gas prices continue to increase, the economy is falling apart, and some believe that the environment is changing for the worst. All of these problems can be related to two things, the cost of fuel and the inefficient vehicles we drive. Both of these problems can be solved with one solution. This solution could not only help the environment, it could help the economy, and advance technology. We should require that the automobile manufacturers should produce more fuel efficient vehicles.

To start with, this solution could do a variety of things including helping the environment. Some believe that all the pollutants we put into the atmosphere are causing global warming, now this may or may not be true, but what is true is that these pollutants cause a number of unsightly and harmful things. These pollutants cause a haze to appear over large cities that not only looks terrible, but can cause damage. When it rains this haze collects in the rain droplets and creates a form of rain called acid rain. Acid rain not only eats away at buildings and cars, but also makes the soil at farms very high in acid levels, which can lead to the death of crops. This haze can naturally go away, but when we use inefficient vehicles which add more and more pollutants to the haze, it will never leave, it will only grow. If we were to use more fuel efficient cars though, the haze would start to lessen and go away.

The pollutants from vehicles aren't the only thing destroying the environment, we are too. With the raise in demand for crude oil the state of Utah has allowed oil companies to drill in national parks. These huge oil drillers are now going to be allowed in the national parks. Unless we start to drive more fuel efficient cars, and lower the demand for crude

Perspective on Analytical Writing a Focus on Feature and Editorial Writing Richmond S. Anderson Snr.,2021-12-10 The writing of this book Perspective on Analytical Writing a focus on Feature and Editorial writing is based on the urge for students majoring in mass communication on the African continent particularly those within the Economic Community of West African States ECOWAS to have a simplistic understanding of the course feature and editorial writing It will be oblivious or a miss calculation to say that there are no texts books on feature and editorial writing on the African continent since I have not had the opportunity to extensively travel within Africa but what could be safely said is for over three decades since I completed my under graduate studies I have not seen a text book on feature and editorial writing readily Based on this experience the book first endeavored in its starting to give students an insight on what an analytical writing is beginning with a drill on perspective and gave a detailed and vivid picture of perspective thereby laying the basis to understanding what feature and editorial writing is all about Although the core focus of the book is on feature and editorial writing but as the title depicts Perspectives on Analytical Writing more emphases are placed on perspective and analytical writing in order to provide a deeper understanding for the students as a foundation to grasp the concept of feature and editorial writing Also the book featured research as a component to writing an appreciable feature and editorial piece Added to research other ingredients for writing good feature and editorials are also considered They include opinion persuasion and propaganda Furthermore since feature and editorial writings are within the scope of mass communication and journalism it became imperative for the book to touch on the ethical aspect of the profession aimed at providing students the barometer of

knowing what to do and not what to do while writing feature and editorial pieces In its conclusive stage the book dealt with the impact of editorial on political actors as it relates to their involvement in the process of national development As you will come across in your reading mass communication and journalism are catalysts to agenda setting in any society therefore it is expected that stakeholders particularly those involved in the governance process of our countries in Africa to take clue from editorial articles especially those that advocate for positive change to propel them to respond to the developmental needs of Africa Now let s be practical and reflect on a simple analogy referencing a performance by a group of movie stars such as the late popular comedian Peter Ballah of Liberia Kekura Kamara with his popular movie Malawala Balawala of Liberia Salla Kamara with his movie Blood Diamond of Sierra Leone Mr Ibu John Okafor with the show Mr Ebu and his son of Nigeria or John Dumelo with the movie the tie that binds of Ghana As these movie stars are performing in their movies the viewers are fascinated with emotion amusement and are thrilled by the performances while in their seats in the theatre movie hall or in their various homes Just as the emotion of viewers is intrigued by the performances or movies so feature and editorial write ups are replica to evoking the emotion of the readers The articles must create a scenario of curiosity to arouse or entice the readers This is the drama in feature and editorial writing
