Being and Becoming African as a Permanent Work in Progress B. Nyamnjoh, U. Nwosu, 2021-06-09 This book is a timely addition to debates and explorations on the epistemological relevance of African proverbs especially with growing calls for the decolonisation of African curricula The editors and contributors have chosen to reflect on the diverse ways of being and becoming African as a permanent work in progress by drawing inspiration from Chinua Achebe's harnessing of the effectualness of oratory especially his use of proverbs in his works The book recognises and celebrates the fact that Achebe's proverbial Igbo imaginations of being and becoming African are compelling because they are instructive about the lives stories struggles and aspirations of the rainbow of people that make up Africa as a veritable global arena of productive circulations entanglements and compositeness of being The contributions foray into how claims to and practices of being and becoming African are steeped in histories of mobilities and a myriad of encounters shaped by and inspiring of the competing and complementary logics of personhood and power that Africans have sought and seek to capture in their repertoires of proverbs The task of documenting African proverbs and rendering them accessible in the form of a common hard currency with fascinating epistemological possibilities remains a challenge yearning for financial scholarly social and political attention The book is an important contribution to John Mbiti's clarion call for an active and sustained interest in African proverbs

Postcolonial Imaginations and Moral Representations in African Literature and Culture Chielozona Eze, 2011-12-16 The postcolonial African culture as it is discoursed in the academia is largely influenced by Africa's response to colonialism To the degree that it is a response it is to considerably reactive and lacks forceful moral incentives for social critical consciousness and nation building Quite on the contrary it allows especially African political leaders to luxuriate in the delusions of moral rectitude imploring at will the evil of imperialism as a buffer to their disregard of their people This book acknowledges the social and psychological devastations of colonialism on the African world It however argues that the totality of African intellectual response to colonialism and Western imperialism is equally if not more damaging to the African world In what ways does the average African leader indeed the average African judge and respond to his world How does he conceive of his responsibility towards his community and society The most obvious impact of African response to colonialism is the implicit search for a pristine innocent paradigm in for instance literary philosophical social political and gender studies This search has its own moral implication in the sense that it makes the taking of responsibility on individual and social level highly difficult Focusing on the moral impact of responses to colonialism in Africa and the African Diaspora this book analyzes the various manifestations of delusions of moral innocence that has held the African leadership from the onerous task of bearing responsibility for their countries it argues that one of the ways to recast the African leaders responsibility towards Africa is to let go on the one hand the gaze of the West and on the other of the search for the innocent African experience and cultures Relying on the insights of thinkers such as Frantz Fanon Wole Soyinka Kwame Anthony Appiah Achille Mbembe and Wolfgang Iser this book suggests new approaches to interpreting African experiences It discusses select African works of fiction as a paradigm for new interpretations of African experiences

Conrad's Shadow Nidesh Lawtoo, 2016-09-01 Western thought has often dismissed shadows as fictional but what if fictions reveal original truths Drawing on an anti Platonic tradition in critical theory Lawtoo adopts ethical anthropological and philosophical lenses to

offer new readings of Joseph Conrad's novels and the postcolonial and cinematic works that respond to his oeuvre. He argues that Conrad's fascination with doubles urges readers to reflect on the two sides of mimesis: one side is dark and pathological and involves the escalation of violence, contagious epidemics, and catastrophic storms; the other side is luminous and therapeutic and promotes communal survival, postcolonial reconciliation, and plastic adaptations to changing environments. Once joined, the two sides reveal Conrad as an author whose Janus-faced fictions are powerfully relevant to our contemporary world of global violence and environmental crisis.

Chinua Achebe D. Carroll, 1990-05-15 This is a revised edition of Chinua Achebe's 1980 critical study of the most widely known African writer, which now incorporates a discussion of his most recent work, including his major new novel *Anthills of the Savannah*. The study examines the context in which he writes that complex intermingling of his own Igbo society and European colonialism, before undertaking a critical discussion of the five main novels, his poetry, and short stories. Throughout, there is an underlying concern with Achebe's system of values and the pressure on them through periods of colonialism, independence, political disillusionment, and civil war. The author finally seeks to relate Achebe's career to the role of the African writer, a subject on which the novelist has written at length.
