Compelling Ethical Challenges in Critical Care and Emergency Medicine Andrej Michalsen, Nicholas Sadovnikoff, 2020-07-22 This book addresses the ethical problems that physicians have to face every day while caring for critically ill patients Advances in medical technology ageing societies worldwide and their increased demands on health care systems have on the one hand led to better care and remarkable longevity in many parts of the world On the other hand however improved treatments in many medical fields amongst others in emergency and critical care have resulted in more patients surviving with reduced quality of life This entails tradeoffs for many patients their families and the teams caring for them At the same time health care expenditures have risen dramatically and have to be balanced against costs for other public goods Finally the humane aspects of care have often failed to keep pace with the remarkable technological strides made in recent years In this book experts in their respective fields describe compelling ethical challenges resulting from these discrepancies and discuss potential solutions The book is primarily intended for clinicians who care for two of the most vulnerable patient subpopulations those being treated in ambulances or emergency rooms and those being treated at intensive care units due in part to the fact that they may be temporarily or permanently incapacitated Core medical skills such as diagnosis and

predicting outcomes as well as implementing treatment remain challenging. However, without adequate communication and collaboration both within the inter professional treatment teams and between the teams and the patients, their families delivering excellent care is difficult at best. Therefore, the so called soft skills are given the attention they deserve in order to overcome the gap between technological progress and interpersonal standstill.

Contemporary Sport Management Paul M. Pedersen, 2024-10-17. For over 25 years *Contemporary Sport Management* has been the most comprehensive authoritative introductory text in the field and the improved eighth edition promises to serve the needs of sport management students even better. Sixty contributors representing a diverse array of scholarly and practitioner backgrounds have teamed up to deliver a timely text to keep pace with the ever changing sport management landscape. Nearly a third of the contributors are new to this edition, adding fresh perspectives, examples and experiences to the mix. This full color text is organized into three parts and aligns with Common Professional Component principles set forth by the Commission on Sport Management Accreditation (COSMA). Part I: Introduction to Sport Management provides an overview and covers the foundational elements of the field. Part II: Sport Management Sites exposes students to career opportunities through various sport entities including interscholastic, intercollegiate and professional sport organizations and agencies. In part III: Sport Management Functions, readers learn about the core functional areas of sport management including sport marketing, communication, sales and consumer behavior, analytics, finance, facility and event management and law. Much has changed in the sport industry since the previous edition was published: name image and likeness (NIL) rules, social justice and inclusion initiatives, conference realignments, billion dollar media rights deals, opportunities for women in sports and the proliferation of artificial intelligence, sport analytics and virtual reality and augmented reality, just to name a few. Each chapter incorporates new content, case studies and sidebars addressing these and other trending topics. Other additions include a section on sport tourism and a new chapter dedicated to esports, discussing its ecosystem, global expansion and career opportunities. Supplementing the text are online learning materials delivered through HKPropel that are designed to increase student engagement and enhance understanding of chapter content. More than 200 activities, Case Studies in Sport Management, journal articles and case study sidebars underscore key concepts and challenge students to think critically about sport management so they can develop insight into issues they will encounter in their careers. Case studies new to this edition examine the 2026 World Cup, marketing of women's sports, facility management and player safety. *Contemporary Sport Management* has long been a favorite of instructors and students, propelled by its engaging content and visuals, full color design, robust pedagogical aids, integrated online learning tools and extensive instructor ancillaries. The updated eighth edition continues that tradition, broadening students' understanding of today's sport management issues and preparing them to enter the profession.

Destinations Pooneh Torabian, Julia N. Albrecht, 2025-02-28 This innovative and timely book critically explores and demonstrates how both the tourism system and tourism destinations can adapt and act to mitigate, avoid, or solve injustices in destinations. The volume looks at issues of injustices in tourism destination management and governance. This book sheds light on theoretical and practical perspectives and illustrates ways in which tourism practices cause or perpetuate inequities and injustices on people, animals, and the environments of destinations. By doing so, the book offers further insight into who benefits from tourism, how tourism can be made fairer and more just, and at the more extreme end, how tourism can be mobilised as a tool for securing justice. This significant book is a must-read for academics, researchers, and students interested in tourism governance and destination management.
