The Child's Curriculum Colwyn Trevarthen, Jonathan Delafield-Butt, Aline-Wendy Dunlop, 2018-08-30 All children are born with emotional talent. But if left untended, those talents can wane during the first five years of life. Children are sensitive and social beings from birth, exhibiting an innate enthusiasm for communication that must be satisfied for healthy development. If their feelings, agency, and motivations are met with affection, if they are respected and nurtured, then children will respond creatively and that inherent desire for companionship will flourish. However, with the recent changes in political and educational systems, early years education has seen a decline in focus on the emotional wellbeing of children and the development of their creativity. Those systems need to adapt if educators are to bring out the best in our future generations. By nurturing creativity and emotional wellbeing in the first five years of life, long-term social benefits can be wrought. The book focusses on children's readiness for learning. It addresses the natural joy explicit in children's early conversations and engagement with music and their development through play with both adults and other children. This kind of education allows children to develop their bodies and skills, accept and understand their feelings, build relationships, and progress both their imagination and their problem-solving skills. In this way, play with others drives development. With contributors from the fields of psychological, educational, and political spheres, this book will be of interest to anyone concerned for the future of our children.

The Power of Risky Play in the Early Years Zoe Sills, Sarah Watkins, 2025-08-07 Harness the learning power of Risky Play in the Early Years. Now more than ever, children need to develop autonomy and decision-making skills. Too often in Early Years settings, opportunities for learning through risky play are missed. In this book, Zoe Sills and Sarah Watkins support you to overcome the barriers to embedding and allowing space for risky play in your setting. Know the value of Risky Play. Create a learning environment that encourages and supports Risky Play. Feel confident to allow the time and space for Risky Play. Develop a better understanding of risk and learning. Children know what they need for their bodies and minds. Through self-directed play, children naturally challenge themselves. They test their physical and emotional boundaries as part of cognitive and physical development. We should be supporting this child-led learning in the Early Years, not limiting it. This book helps you to do this to harness the learning power of Risky Play.

No Other Gods Ana Levy-Lyons,2018-03-06 Ana Levy Lyons a public theologian who is equally at home in secular and religious worlds offers a deeply perceptive reinterpretation of the Ten Commandments for our modern lives The Ten Commandments are a spiritual resource for social justice A politically and spiritually brazen prescription for living the Ten Commandments would turn our world upside down if we actually followed them Far from being only ethical norms on which everyone already agrees or a remnant of a bygone oppressive era the Commandments are actually countercultural practices Today the Ten Commandments are a divisive part of American culture Religious conservatives champion them even if they don t always practice them Religious liberals and the nonreligious may bristle at what they perceive as antiquated moral restrictions But this ancient code still has vital contemporary relevance Rev Levy Lyons explores ways the Commandments bring us meaning illuminate our values and help us navigate through the turbulent waters of social injustice environmental crises and societal inequity No Other Gods looks at each Commandment in new ways moving beyond interpersonal morality to the global economy and our hyper connected age From the first You Shall Have No Other Gods Besides Me Dethrone the Modern Deities of Political Social and Corporate Power to the tenth Do Not Covet Practice Your Liberation You Have Enough You Are Enough and all those in between she underscores how the Commandments can produce a bold spiritual consciousness Whether you are deeply religious or spiritual but not religious learn how the Ten Commandments can guide you to resist injustice heal our earth and find personal dignity amid the free for alls of modern life We don t have to invent a bunch of new practices for a meaningful way to live out our spirituality and social justice politics says Levy Lyons There is a perfectly good set of ten of them all ready to go with as much progressive firepower as any of us can handle that has existed for some three thousand years Under-three Year Olds in Policy and Practice E. A Generation Abandoned Peter D. Beaulieu, 2017-04-26 *A Generation Abandoned* explores the disruptive cultural events especially of the past half century as these have undermined the confidence of the young in themselves and in civil society and finally in our place in the universe The overall theme is the contrast between this sense of abandonment and our inborn and neglected orientation toward personal worth and the common good the natural law Much of what is peddled as social evolution today is shown to be a throwback to darker times The analysis submits to a refreshingly conversational tone but also draws incisively from a very broad pallet of history literature theater theology and simplifying and illuminating anecdotes some of them first hand An early chapter outlines the perfect storm of the 1960s Later chapters expose the word games of the cultural elite the saga of the family through history and now its abrupt erosion and the difference between any meandering arc of history and a more grounded arc of relations our rationalized culture of death versus a flourishing human ecology
