Ryckman, 1993 Ryckman U of Maine intends his textbook to be accessible to undergraduates who have had little or no previous exposure to personality psychology He reviews the basic concepts and principles of the major theories of personality and assesses how well they meet criteria for judging their scientific worth He also introduces research studies that test the validity of the theories presents issues that challenge contemporary personality psychologists and discusses some of the major trends in theory and research Annotation copyrighted by Book News Inc Portland OR *Psychology as Religion* Paul C. Vitz, 1994 This is a virtually rewritten second edition of New York University Professor Paul Vitz's profoundly important analysis of modern psychology Vitz maintains that psychology in our day has become a religion a secular cult of self and has become part of the problem of modern life rather than part of its resolution **National Library of Medicine Current**

The Capitalist Personality Christopher S. Swader, 2013-01-04 Modern capitalism favors values that undermine our face to face bonds with friends and family members Focusing on the post communist world and comparing it to more developed societies this book reveals the mixed effects of capitalist culture on interpersonal relationships While most observers blame the egoism and asocial behavior found in new free market societies on their communist pasts this work shows how relationships are also threatened by the profit orientations and personal

ambition unleashed by economic development Successful people in societies as diverse as China Russia and Eastern Germany adjust to the market economy at a social cost relaxing their morals in order to obtain success and succumbing to increased material temptations to exploit relationships for their own financial and professional gain The capitalist personality is internally troubled as a result of this sellout but these qualms subside as it devalues intimate qualitative bonds with others This book also shows that post communists are similarly individualized as people living in Western societies Capitalism may indeed favor values of independence creativity and self expressiveness but it also rewards self centeredness consumerism and the stripping down of morality As is the case in the West capitalist culture fosters an internally conflicted and self centered personality in post communist societies

Personality Theories Workbook Donna Musialowski Ashcraft,2003 This unique workbook was written for the undergraduate Personality course where professors are looking for activities to help students learn and apply personality theories to real life examples The workbook is geared toward personality courses that are theories based as opposed to research based Because the cases explored are those based on normal behavior as opposed to abnormal behavior this workbook is especially useful While most personality texts present the major concepts of personality theories they don't help students apply the theories they have learned or to use the theories to understand other examples on their own This workbook will help students do just that and is the perfect complement to any Personality text

Method in Madness Jutta Emma Fortin,2005 The language of the fantastic left its mark upon many different thinkers in 19th century Europe Marx's comparison of consumer goods to fetish objects works by Villiers de l'Isle Adam or other novelists about machines that assume lives of their own or the diagnoses of psychological illness offered by doctors in Maupassant's tales all blur the lines between scientific description and beliefs in the magical Building upon a wealth of critical studies devoted to the fantastic and upon Freud's theory of the unconscious Jutta Fortin proposes that many classic stories of the fantastic undermine basic psychological mechanisms that are designed to help their users cope with shocking or disturbing events By defining five of these defence mechanisms and analyzing stories by eight writers that both illustrate and subvert such mechanisms Dr Fortin offers reasons why fantastic stories appealed to those readers who wished to better understand human motivations

BOOK JACKET Mimetic Criticism and the Gospel of Mark Joel L. Watts,2013-02-01 What if the story of Jesus was meant not just to be told but retold molded and shaped into something new something present by the Evangelist to face each new crisis The Evangelists were not recording a historical report but writing to effect a change in their community Mark was faced with the imminent destruction of his tiny community a community leaderless without Paul and Peter and who witnessed the destruction of the Temple now another messianic figure was claiming the worship rightly due to Jesus The author of the Gospel of Mark takes his stylus in hand and begins to rewrite the story of Jesus to unwrite the present rewrite the past to change the future Joel L Watts moves the Gospel of Mark to just after the destruction of the Temple sets it within Roman educational models and begins to read the ancient work afresh Watts builds upon the historical

criticisms of the past but brings out a new way of reading the ancient stories of Jesus and attempts to establish the literary sources of the Evangelist

The True Self and False Self Matthew Brett Vaden, 2022-01-06 We go through life focusing our attention on many things But how much do we focus on ourselves We may be aware of many things but are we self aware This is a question our contemporary culture asks us to consider more and more and words like self awareness personal identity authenticity and mindfulness are becoming not just buzz words but virtues The ancient dictum know thyself reverberates in all corners of our lives from Disney characters on our TVs to DISC profiles at our workplaces Some of the more mindful members of our society may even be tempted to disdain those who are not as mindful as they are But what if our self aware culture hailing us to pursue our true selves is unaware of itself What if our definitions of true and false self understanding are myopic slanted towards a narrow solipsism that is actually leading people away from authenticity while all the while championing it If so how would we know Who is best able to define these things and to teach us how to know ourselves truly Matthew Brett Vaden traces the wisdom of past and modern day sages to discover how we can truly discover ourselves
