

## Helios Zeta and Helios Omega

Cost-effective performance for routine and research analysis

The Thermo Scientific Helios™ Zeta and Helios Omega are easy-to-use, reliable UV-Visible spectrophotometers designed for research, routine quality control, and teaching needs. The built-in, Local Control software offers unique solutions for a wide range of laboratory requirements – from fixed wavelength measurements and concentration determinations to wavelength scanning and multicomponent analysis.

For over 60 years, customers in world-renowned research institutions, industrial laboratories, and teaching institutions have relied on Thermo Scientific UV-Visible spectrophotometers. The Helios Zeta and Helios Omega continue our tradition of providing high-quality spectrophotometers meeting the demanding needs of the routine and research laboratory. A wide range of accessories for your liquid and solid sampling requirements are available for use with the Helios instruments.

### Quality and Performance

The Helios design uses a minimum number of optical components and provides excellent light throughput and affordable performance – all in a compact footprint. The dual-source tungsten and deuterium lamp system offers maximum performance over the entire wavelength range. The double-beam config-

uration of the Helios Zeta provides excellent stability with the flexibility to measure both sample and reference samples simultaneously. A variety of sample and reference beam cell holder accessories makes the Helios Zeta a clear choice for demanding samples. The single-beam Helios Omega, with its wide selection of sample cell holders, provides a cost-effective solution.

### Extensive Software Choices

For maximum flexibility, the Helios spectrophotometers can be controlled from either the intuitive VISIONlite™ software suite or the more advanced VISIONpro™ interface. In regulated environments where 21 CFR Part 11 compliance is a requirement, VISIONlite SE or VISIONsecurity™ software provide extensive tools for data security, electronic signatures, and audit trails.
