Unlikely Muse Daniel Kornstein, 2010 This trail blazing book explores previously uncharted aspects of law and literature as well as the psychology paradoxes and wonderful mystery of creativity A study of artistic inspiration Unlikely Muse examines and analyzes the lives and works of three very different writers who combine law literature and imagination nineteenth century French novelist Honoré de Balzac modernist American poet Wallace Stevens and controversial playwright memoirist Lillian Hellman From the literary careers of those three writers emerge two intertwined and exciting new themes The first theme demonstrates unexpected synergy between law and literature Opening original lines of inquiry Unlikely Muse probes the possible relationship between legal training and artistic creativity A surprisingly large number of great creative artists writers such as Balzac poets such as Stevens painters such as Matisse and composers such as Tchaikovsky studied or practiced law This book asks whether such people became great creative artists because of or despite their legal background Others such as Hellman had no legal training but wrote much about the law This book sketches the intellectual atmosphere and biographical background that shaped these three writers creative process highlighting the impact of the law on their work The second theme uses these

same three writers to focus on the changing role of imagination in literature From Balzac through Stevens to Hellman and beyond the author traces imagination s arc from a positive artistic quality to something that is sometimes more controversial perhaps deceitful and negative In the last few decades ever since Hellman s memoirs were attacked as untrue journalists memoirists and other writers have palmed off works of fiction as non fiction often causing literary scandals This book offers a new theory why this phenomenon is happening and how it should be regarded **The Harvard Law School** Eliot

Those decisions in turn largely determine a case's course and outcome. The Moral Imagination and the Legal Life Zenon Bankowski, Maksymilian Del Mar, 2016-03-03. What role can resources that go beyond text play in the development of moral education in law schools and law firms? How can these resources, especially those from the visual and performing arts, nourish the imagination needed to confront the ethical complexities of particular situations? This book asks and answers these questions, thereby introducing radically new resources for law schools and law firms committed to fighting against the moral complacency that can all too often creep into the life of the law. The chapters in this volume build on the companion volume *The Arts and the Legal Academy*, also published by Ashgate, which focuses on the role of non-textual resources in legal education generally. Concentrating in particular on the moral dimension of legal education, the contributors to this volume include a wide range of theorists and leading legal educators from the UK and the US. **Academic Callings** Janice Angela Newson, Claire Polster, 2010. What purpose should the university serve? What are the true callings of academics? In *Academic Callings*, prominent Canadian scholars tackle these big questions and provide a timely survey of the state of the Canadian university. With so much current interest in the university's role in the economy and so much emphasis on research tied to funding opportunities, this volume seeks to revive the idea of the university as it has been and could be again: a democratic institution committed to advancing critical thought and serving the public interest. With contributions from diverse disciplines—Classics to biology, nursing to sociology—*Academic Callings* aims to provoke a wide-ranging conversation, one that concerns everyone, whether as members of academic communities or as citizens. Contributors include Joel Bakan, George Sefa Dei, Barbara Godard, Paul Hamel, Dorothy Smith, Nasrin Rahimieh, Andrew Wernick, and more than twenty others.
