Contemporary Science Teaching Approaches Dr. Funda Ornek, Dr. Issa M. Saleh, 2012-05-01 Contemporary science teaching approaches focus on fostering students to construct new scientific knowledge as a process of inquiry rather than having them act as passive learners memorizing stated scientific facts Although this perspective of teaching science is clearly emphasized in the National Research Council's National Science

Education Standards NRC 1996 it is however challenging to achieve in the classroom Science teaching approaches should enhance students conceptual understanding of scientific concepts which can be later utilized by students in deeper recognition of real world Marsak Janouskova 2007 This book identifies and describes several different contemporary science teaching approaches and presents recent applications of these approaches in promoting interest among students It promotes conceptual understanding of science concepts among them as well This book identifies pertinent issues related to strategies of teaching science and describes best practice The chapters in this book are culmination of years of extensive research and development efforts to understand more about how to teach science by the distinguished scholars and practicing teachers
