Elementary, Secondary, and Vocational Education,1987 *Teaching Adolescents Religious Literacy in a Post-9/11 World*
 Robert Nash,Penny A. Bishop,2009-11-01 For thousands of years religion has been a key element of human societies
 Whenever we as educators exclude or minimize religion s vast role in society we leave out a large part of our world s shared
 history This is a serious act of educational omission even neglect on the part of our nation s public middle and secondary
 schools particularly when adolescents are so ready to engage in meaningful conversation about the world that surrounds
 them Our book s central purpose is to provide middle level and high school teachers with the necessary background
 knowledge and pedagogical skills necessary to help adolescents become religiously literate learners and citizens Currently
 there is no text like ours on the market that both covers a number of world religions and presents concrete recommendations
 for teaching and learning this material Our book is meant to educate the following audiences teacher educators middle level
 and high school teachers in all content areas administrators school boards and parents For us educating for religious literacy
 is all about bringing adolescents into the 21st century of teeming religious and spiritual diversity a long neglected component
 of the multicultural curriculum in public schools In a post 9 11 world religious literacy requires that students understand the
 whats and whys of differing religious beliefs both in their own country and elsewhere It means looking for commonalities as
 well as differences between and among the great wisdom traditions both nationally and internationally It is about
 understanding how all of us might live peacefully in a religiously diverse world Our book accomplishes these goals by being
 informative practical experiential case based and above all accessible to beginners **Report** Yale-Fairfield Study in
