

# Drawing Conclusions

A conclusion is a judgement or decision about a character, setting, or event that is reached by reviewing all the available information. Good readers draw conclusions as they read to help them understand the story.

*Drawing conclusions and making inferences are both part of the problem solving process. While they are similar, they aren't exactly the same thing.*

## How to Draw Conclusions

1	The first step to drawing a conclusion requires the reader to review all the information stated in the text about a person, setting, or event.
2	The next step is for the reader to consider any facts or details that are inferred, but not stated.
3	Once the reader has all the information available, he/she should analyze it and consider what the next logical step or assumption would be for the given situation.
4	The reader comes up with a conclusion. He or she will determine the next logical steps or assumptions based on the information available.
