

Script for Administering the Computer-Based Grade 7 ELA Reading Practice Test

This script should be used to administer the Grade 7 ELA Reading Practice Test to students who will take a computer-based practice test via the secure browser. If students will sign in with an Internet browser, you will need to make adjustments to the script to remove references to the secure browser. When reading the following script, please note that any optional words or terms in the script are italicized and in parentheses.

If you will administer the practice test to students using CBT accommodations, access the *Grade 7 ELA Reading Accommodated Computer-Based Practice Test Script* on the Florida Statewide Assessments Portal.

This script describes the presentation of passages, items, and tools in the secure browser for the Grade 7 ELA Reading practice test. This script is intended to provide instruction for all aspects of the practice test. However, test administrators may modify the script as appropriate to the needs of the participating students. Test administrators may, for instance, feel that it is unnecessary to describe each item type in great detail. In that case, they may consolidate the item type section of the script as they see fit, using the instructions in that part of the script to answer questions as needed. Test administrators may also find it helpful to project the practice test and walk through items along with students.

This script directs test administrators to provide test tickets for students. However, you may administer the practice test without test tickets. If students do not use tickets, you will need to modify this script to direct students to sign in as Guest Users. This script also includes instructions for test administrators to create a training session for students to log in to. FDOE strongly recommends that test administrators and schools use this method to conduct their practice tests to ensure a similar login process to what students will experience during operational testing. The login portion of this script will need to be modified to match the login process if a Guest Session is used instead of a training session.

Students who log in to the test with tickets will be displayed in the TA Training Site. To keep a record of students who have participated in the practice test, you can then print this page for your records. After ending Session 1, students will need to wait two minutes before logging in to Session 2, or they will be returned to Session 1.

Before Beginning the Practice Test

1. Before students arrive, ensure that the testing room is prepared as it will be on the day of the test.
2. Ensure that each student has a pen or pencil and a piece of paper to take notes.
3. Ensure that you have received the correct test tickets from your school assessment coordinator for all students who will test in your room. **Do not distribute test tickets until instructed to do so in the script.**
4. Ensure that all software applications, including Internet browsers, are closed on all student computers or devices before testing begins.
5. Check that each student has headphones or earbuds. Plug headphones or earbuds in and adjust volume prior to launching the secure browser.
6. Launch the secure browser on student computers or devices prior to beginning the practice test session.
7. Select **Go to the Practice Test Site** in the blue box in the lower left corner of the browser.
