**An Age of Accountability** John L. Rury,2023-10-13 An Age of Accountability highlights the role of test based accountability as a policy framework in American education from 1970 to 2020 For more than half a century the quest to hold schools and educators accountable for academic achievement has relied almost exclusively on standardized assessment The theory of change embedded in almost all test based accountability programs held that assessment with stipulated consequences could lead to major improvements in schools This was accomplished politically by proclaiming lofty goals of attaining universal proficiency and closing achievement gaps which repeatedly failed to materialize But even after very clear disappointments no other policy framework has emerged to challenge its hegemony The American public today has little confidence in institutions to improve the quality of goods and services they provide especially in the public sector As a

consequence many Americans continue to believe that accountability remains a vital necessity even if educators and policy scholars disagree *Gifted?: The shift to enrichment, challenge and equity* Morgan Whitfield, 2024-07-19 Gifted and talented is a zombie It is dead but still walking around There are new labels to stratify students more able significantly able high aptitude learners New labels do not equal new thinking The concept of gifted is still stubbornly embedded in our educational structures with its legacy of social immobility racism and sexism Students can be more able when they have more financial resources more access more visibility or more cultural acceptance There are pervasive narratives that educators should prioritise extension for some students and not others We can dispel the myth that pitching lessons judiciously to middle ability and then differentiating up and down is effective This book explores how we can provide every student with rigorous challenge Challenge for all is an inclusive approach to teaching whereby every student is invited and given the tools to reach a place of mastery This can be through project based learning Harkness round tables oracy adaptive teaching inclusive enrichment programs dynamic classroom strategies and a schoolwide mission for equity Educators can embed powerful knowledge into the curriculum reimagine teaching to the top and stretch learners through personalised and responsive instruction The shift to enrichment challenge and equity creates magnificent possibilities The message to all students is you belong here *The American Catalogue ...
