Restructuring The Postwar World Chapter 3key:

Tourism and Socio-Economic Transformation of Rural Areas Joanna Kosmaczewska, Walenty Poczta, 2021-05-24

This book aims to fill a gap in the current literature by tracing the rural transformation process and the development of rural tourism functions in Poland over the last 30 years. It examines the socioeconomic transformation between 1989 and 2019 that resulted in the formation and development of Polish rural tourism and the various practices associated with it. This timely topic is addressed in a central and eastern European context and sparks interest in further in-depth analysis due to the diversity and magnitude of the transformation processes undertaken by the Polish rural areas. Since Polish rural areas constitute as much as 30% of the total rural areas in all new European Union member states, this book adds value through an in-depth statistical analysis of the pace of socioeconomic changes in Polish rural areas. It delves into the creation and consumption of tourism services locally as well as the impact of global trends on the development of rural tourism in Poland. This book will be of interest to economists, sociologists, political scientists, and postgraduate students across eastern and central Europe who deal with rural tourism issues.

Representing East Germany Since Unification Paul Cooke, 2005-08. Cooke maps out the problematic path of German national identity as it struggles to deal with the legacy of division. Drawing on postcolonial theory, he argues that the East has been defined as the West's exotic other and shows how this stereotype has been vigorously challenged.
