proficiency level Much of this low performance is due to a student's lack of experience with writing explanations of the mathematics that made it possible to solve the problem Mathability presents a systematic approach that will lead students to proficiency Within each unit this book provides four different levels of problems The Step by Step Level leads a student through the problem and provides a format for presenting their answers The Prompted Level provides the format for presenting the solution and hints on how to solve the problem The Independent Level allows students to solve and explain their answers on their own and the Challenge Level problems present a venue for gifted and talented students to push their skills to a higher level Grades 5-8
