insights that interpret the close relationship between self division paradox and the use of a pseudonym demonstrating how they help in understanding Orwell s character works and the nature of totalitarian politics Analysing self division both as an Orwellian trait and as a totalitarian strategy and finding a connection with Machiavelli against the milieu of Orwell s development as a writer is an intricate and interrelated topic that has not previously received critical attention either in its individual parts or as an integrated study This book establishes an essential template with which to analyse Orwell s self division apropos his growing fears of totalitarian power politics and offers distinct analytical acumens that allow for an updated understanding of Orwell and of his relevance to political thought and the question of common decency in twenty first century literature and politics

Marketing the Third Reich Nicholas O'Shaughnessy,2017-09-13 In this fascinating volume Nicholas O Shaughnessy elucidates the phenomenon of the Nazi propaganda machine via the perspective of consumer marketing conceptualising the Reich as a product campaign Building on his acclaimed *Selling Hitler* 2016 he uses marketing scholarship to show how propaganda and political marketing existed not merely as an instrument of government in Nazi Germany but as the very medium of government itself *Marketing the Third Reich* explores the insidious connection between a mass culture and a political movement and how the cultures of consumption and politics influence and infect each other consumerised politics and politicised consumption Ultimately its

concern is with the engineering of consent the troubling matter of how public opinion can be manufactured and governments elected via sophisticated methodologies of persuasion developed in the consumer economy Nazism functioned as a brand packaging almost everything with persuasive purpose Revealing obvious parallels between Adolf Hitler's use of the living theatre of politics and our present public political dramaturgy between Nazi lies and our post truth the book raises the chilling question was Hitler ahead of his time This radical original in depth study will be an invaluable resource for all scholars of marketing history political marketing propaganda and history

Always at War Thomas Colley, 2019-08-01 Compelling narratives are integral to successful foreign policy military strategy and international relations Yet often narrative is conceived so broadly it can be hard to identify The formation of strategic narratives is informed by the stories governments think their people tell rather than those they actually tell This book examines the stories told by a broad cross section of British society about their country's past present and future role in war using in depth interviews with 67 diverse citizens It brings to the fore the voices of ordinary people in ways typically absent in public opinion research Always at War complements a significant body of quantitative research into British attitudes to war and presents an alternative case in a field dominated by US public opinion research Rather than perceiving distinct periods between war and peace British citizens see their nation as so frequently involved in conflict that they consider the country to be continuously at war At present public opinion appears to be a stronger constraint on Western defense policy than ever

Challenges in Strategic Communication and Fighting Propaganda in Eastern Europe D. Sultănescu, 2019-02-08 In 2019 Eastern Europe will celebrate 30 years since the fall of communism but this celebration takes place in a context of increased geopolitical competition in the region The Western democratic model is under attack not only in the countries of Eastern and Central Europe but also in the core countries of the EU and even in the United States The messages and methods of dissemination used by anti Western propaganda may differ with each national context but the effect is the same the slow but progressive

The Sociology of War and Violence Siniša Malešević, 2010-06-10 War is a highly complex and dynamic form of social conflict This book demonstrates the importance of using sociological tools to understand the changing character of war and organised violence The author offers an original analysis of the historical and contemporary impact that coercion and warfare have on the transformation of social life and vice versa Although war and violence were decisive components in the formation of modernity most analyses tend to shy away from the sociological study of the gory origins of contemporary social life In contrast this book brings the study of organised violence to the fore by providing a wide ranging sociological analysis that links classical and contemporary theories with specific historical and geographical contexts Topics covered include violence before modernity warfare in the modern age nationalism and war war propaganda battlefield solidarity war and social stratification gender and organised violence and the new wars debate

Media Management in the Age of Lyndon B. Johnson Benjamin W. Quail, 2022-01-01 This book looks broadly at how the contentious relationships between the media and US President Lyndon B Johnson affected the national consciousness during the turbulent period of his leadership Johnson had to deal with a particularly difficult and divisive period in American history and his relationship with the press undoubtedly contributed to an atmosphere of friction within the United States A more specific purpose of this research monograph is ultimately to shine a light on the trials and tribulations that Johnson faced as a president dealing with new forms of communication in the 1960s It aims to show the difficulties that he had in adapting a very personal style of leadership which had served him well in the Senate in the role he undertook as leader of a nation Further to this it builds on this foundation to argue that Johnson developed a reactive passive stance to dealing with the media one that ultimately contributed to a loss in popularity and status as leader a blow he never recovered from during his time in office

Far-Right Newspeak and the Future of Liberal Democracy A. James McAdams, Samuel Piccolo, 2024-04-23 This book is the first systematic multicountry exploration of far right Newspeak The contributors analyze the ways in which contemporary far right politicians intellectuals and pundits use

and abuse traditional liberal concepts and ideas to justify positions that threaten democratic institutions and liberal principles They explore cases of both far right and right wing thought in eastern and western Europe the United States and Canada Subjects include well known figures such as Marine Le Pen Tucker Carlson Peter Thiel Nick Griffin Thierry Baudet Jordan Peterson Russell Brand and Viktor Orb n and lesser known names such as the Czech politician Tomio Okamura and the Internet personality Raw Egg Nationalist The contributors examine these figures claims about hot button issues including immigration Islam race Covid 19 policies feminism monetary policy and free speech The book demonstrates that mainstream politicians and intellectuals are at risk of losing control over the definitions of the very concepts including equal rights racial and ethnic diversity and political tolerance that undergird their vision of liberal democracy It will be of interest to scholars journalists policymakers political scientists historians political theorists sociologists and general audiences concerned about the sophisticated efforts of far right and right wing politicians and pundits to undermine the foundations of liberal democracy

Political Marketing in Canada Alex Marland,Thierry Giasson,Jennifer Lees-Marshment,2012-02-15 Political parties worldwide are using marketing tools such as targeting and segmentation to win elections Are these strategies making politicians and governments more responsive to voters needs or do they pose a threat to democracy Political Marketing in Canada the first book to ask this question of Canada considers the consequences of political marketing in the realms of public policy leadership and the government citizen relationship Through dynamic case studies that range from the resurrection of the Conservative Party to media accounts of political marketing to Tim Hortons as a political brand the authors trace how political marketing is transforming the old system of brokerage politics into a new distinctly Canadian model Citizens are now viewed as consumers and platforms and promises have been repackaged as products Whether this trend is positive or negative the authors argue depends on how politicians and governments carry out political marketing and its promises in practice

Carnage and Connectivity David Betz,2015-11-15 The burgeoning of global connectivity in recent decades is without historical parallel and the wiring up of the world continues apace even in the poorest regions Flux and ever quickening change are the leitmotifs of the information age across a swathe of human enterprise from industry and commerce through to politics and social relations This is no less the case for the patterns of war where change has been disorientating for soldiers and statesmen whose confidence in the old the traditional and the known has been shaken David Betz s book explains the huge and disruptive implications of connectivity for the practice of warfare The tactical ingenuity of opponents to confound or drop below the threshold of sophisticated weapons systems means war remains the realm of chance and probability Increasingly though the conflicts of our time are less contests of arms than wars of hearts and minds conducted on a mass scale through multimedia communications networks The most pernicious challengers to the status quo are not states but ever more powerful non state actors

The Buddha Party John Powers,2017 The Buddha Party tells the story of how the People s Republic of China employs propaganda to define Tibetan Buddhist belief and sway opinion within

the country and abroad The narrative they create is at odds with historical facts and deliberately misleading but John Powers argues it is widely believed by Han Chinese Most of China s leaders appear to deeply believe the official line regarding Tibet which resonates with Han notions of themselves as China s most advanced nationality and as a benevolent race that liberates and culturally uplifts minority peoples This in turn profoundly affects how the leadership interacts with their counterparts in other countries Powers s study focuses in particular on the government s patriotic education campaign an initiative that forces monks and nuns to participate in propaganda sessions and repeat official dogma Powers contextualizes this within a larger campaign to transform China s religions into patriotic systems that endorse Communist Party policies This book offers a powerful comprehensive examination of this ongoing phenomenon how it works and how Tibetans resist it **ISIS Propaganda** Stephane Baele,Katharine A. Boyd,Travis G. Coan,2020 This book offers a comprehensive overview and analysis of the Islamic State s use of propaganda Combining a range of different theoretical perspectives from across the social sciences and using rigorous methods the authors trace the origins of the Islamic State s message laying bare the strategic logic guiding its evolution examining each of its multi media components and showing how these elements work together to radicalize audiences worldviews This volume highlights the challenges that this sort of full spectrum propaganda raises for counter terrorism forces It is not only a one stop resource for any analyst of IS and Salafi jihadism but also a rich contribution to the study of text and visual propaganda radicalization and political violence and international security

Consuming Reality J. Deery,2012-05-03 Engaging in a comprehensive examination of reality TV s advertising and promotional strategies as well as the commodification of viewers Consuming Reality dissects the unique and startling relation between mediation and consumption **Slow Painting** Helen Westgeest,2020-10-29 The abundance of images in our everyday lives and the speed at which they are consumed seems to have left us unable to critique them To rectify this situation artists such as Daniel Richter Jaume Plensa Quick to See Smith and Artur Zmijewski have demonstrated that painting is brilliantly equipped to produce slow images that enable encourage and reward reflection In this book Helen Westgeest attempts to understand how various forms of slow painting can be used as tools to interrogate the visual mediations we encounter daily Painting was expected to disappear in the digital age but through interactive painting performances and painting like manipulated photographs and videos Westgeest shows how photography video and new media art have themselves developed the visual strategies that painting had already mastered Moreover the fleeting nature of digital mass media appears to have unlocked a desire for more physically stable and enduring pictures like paintings Slow Painting charts how in a world where the constant quest for speed can leave us exhausted the appeal of this slower medium has only grown
