

## **WebAssign Information**

WebAssign is a web-based homework delivery system that will be used to both deliver and grade homework assignments. The assignments contain various types of questions, including numerical, multiple-choice, and even essay questions. For the numerical questions, each student receives a unique question. The questions are basically the same, but the numbers are randomized for each student.

### **Why are we using WebAssign?**

I have found that to do well in chemistry, you must practice solving the problems. They must be graded or students will not take them seriously.

- WebAssign can immediately grade your homework.
- WebAssign will tell you which problems you got wrong. It will also give you feedback to help you figure out what you did wrong and how to fix it.
- WebAssign will give you a chance to resubmit your answers to improve your score.
- WebAssign helps make homework a learning experience, not a test.

### **How do I start using WebAssign?**

1. The first thing you need to do is obtain an access code. This allows you to log into the WebAssign system. These codes can be obtained by purchasing a WebAssign access code card available at the bookstore. You will have a 10 day grace period in which you can do the assignments without purchasing the access code card.
2. Log on to your Blackboard account ([www.selu.edu](http://www.selu.edu), link is at bottom of the page frame). Your login is the same as for LeoNet and webmail. If you have trouble, click on the "**Students - Locate answers to your questions**" link on the Blackboard sign-in web page.
3. Click on this course to get to our course homepage.
4. Click on the "Course Tools" link midway down the left hand side of the page.
5. Click on the "WebAssign" icon (at the bottom of the list; you may have to scroll down). This will automatically log you into WebAssign.
6. At this point, you will have three choices: buy an access code online, enter an access code from a card you've purchased at the bookstore, or enter without a code (this will only work for the 10 day grace period).
7. Once you login, you will see a list of available assignments.

### **Do I have to do all the assignments I see?**

Yes, but not right away. Due dates for assignments are listed beside the assignment. You are welcome to do an assignment early—but not late.

### **Can I work with other students or tutors?**

Yes, but it is in your best interest to understand the problem, not just get instructions on how to get the answer.

## **Webassign Homework Answers Chemistry:**

**Lab Manual for General, Organic, and Biochemistry** Denise Guinn,Rebecca Brewer,2009-08-21 Teaching all of the necessary concepts within the constraints of a one term chemistry course can be challenging Authors Denise Guinn and Rebecca Brewer have drawn on their 14 years of experience with the one term course to write a textbook that incorporates biochemistry and organic chemistry throughout each chapter emphasizes cases related to allied health and provides students with the practical quantitative skills they will need in their professional lives **Essentials of General Organic and Biochemistry** captures student interest from day one with a focus on attention getting applications relevant to health care professionals and as much pertinent chemistry as is reasonably possible in a one term course Students value their experience with chemistry getting a true sense of just how relevant it is to their chosen profession To browse a sample chapter view sample ChemCasts and more visit [www.whfreeman.com/gob](http://www.whfreeman.com/gob)

**Workbook for Organic Chemistry** Jerry Jenkins,2009-12-25 With authors who are both accomplished researchers and educators Vollhardt and Schore's Organic Chemistry is proven effective for making contemporary organic chemistry accessible introducing cutting edge research in a fresh student friendly way A wealth of unique study tools help students organize and understand the substantial information presented in this course And in the sixth edition the themes of understanding reactivity mechanisms and synthetic analysis to apply chemical concepts to realistic situations has been strengthened New applications of organic chemistry in the life sciences industrial practices green chemistry and environmental monitoring and clean up are incorporated This edition includes more than 100 new or substantially revised problems including new problems on synthesis and green chemistry and new challenging problems

**American Journal of Physics** ,2003 **Physics for Scientists and Engineers with Modern Physics** Raymond A. Serway,Robert J. Beichner,2000 This best selling calculus based text is recognized for its carefully crafted logical presentation of the basic concepts and principles of physics The book is available in single hardcover volumes 2 volume hardcover sets and 4 or 5 volume softcover sets Raymond Serway Robert Beichner and contributing author John W Jewett present a strong problem solving approach that is further enhanced through increased realism in worked examples Problem solving strategies and hints allow students to develop a systematic approach to completing homework problems The outstanding ancillary package includes full multimedia support online homework and a content rich Web site that provides extensive support for instructors and students The CAPA Computer assisted Personalized Approach WebAssign and University of Texas homework delivery systems give instructors flexibility in assigning online homework **Physics for Scientists and Engineers** Raymond A. Serway,Robert J. Beichner,John W. Jewett,2000 This best selling calculus based text is recognized for its carefully crafted logical presentation of the basic concepts and principles of physics Raymond Serway Robert Beichner and contributing author John W Jewett present a strong problem solving approach that is further enhanced through increased realism in worked examples Problem solving strategies and hints allow students to develop a systematic

approach to completing homework problems The outstanding ancillary package includes full multimedia support online homework and a content rich Web site that provides extensive support for instructors and students The CAPA Computer assisted Personalized Approach WebAssign and University of Texas homework delivery systems give instructors flexibility in assigning online homework     *ACTUAL ISSUES OF THE DEVELOPMENT OF SCIENCE AND ENSURING THE QUALITY OF EDUCATION* ,2023-04-28 Proceedings of the XII International Scientific and Practical Conference     Announcer ,2004

*Exploring Chemistry (Loose-Leaf)* Matthew Johll,2012-05-04 Matthew Johll's Exploring Chemistry covers the standard topics for the nonmajors course in the typical order but each chapter unfolds in the context of a single case study that helps students connect what they are learning to real life situations For example students work through the often difficult topics of molecular structure gas laws and organic chemistry by learning about the development of powerful new chemotherapy drugs new technologies for screening airline passengers and the creation of biodegradable biopolymers It's the same same case driven approach that Johll uses in his acclaimed Investigating Chemistry now in its Third Edition but Exploring Chemistry goes beyond the other book's specific focus on examples from forensic science to use real life stories from cooking athletics genetics green chemistry and more     **Teaching Science Online** Dietmar Kennepohl,2023-07-03 With the increasing focus on science education growing attention is being paid to how science is taught Educators in science and science related disciplines are recognizing that distance delivery opens up new opportunities for delivering information providing interactivity collaborative opportunities and feedback as well as for increasing access for students This book presents the guidance of expert science educators from the US and from around the globe They describe key concepts delivery modes and emerging technologies and offer models of practice The book places particular emphasis on experimentation lab and field work as they are fundamentally part of the education in most scientific disciplines Chapters include Discipline methodology and teaching strategies in the specific areas of physics biology chemistry and earth sciences An overview of the important and appropriate learning technologies ICTs for each major science Best practices for establishing and maintaining a successful course online Insights and tips for handling practical components like laboratories and field work Coverage of breaking topics including MOOCs learning analytics open educational resources and m learning Strategies for engaging your students online     *THE Journal* ,2000     **Journal of Research on Computing in Education** ,2000     *Principles of Physics* Raymond A. Serway,John W. Jewett,2002 This successful text was the first to address the latest trends in the market as suggested by the Introductory University Physics Project IUPP guidelines PRINCIPLES OF PHYSICS features a concise approach to traditional topics an early introduction to modern physics and the integration of contemporary topics throughout the text In addition to a streamlined presentation it also encourages analytical reasoning and a conceptual understanding of physics through contemporary applications and critical thinking exercises This text represents an evolutionary approach rather than a revolutionary approach This third edition contains many new pedagogical features most notably a contextual

approach to enhance motivation an increased emphasis on avoiding misconceptions through the inclusion of Pitfall Preventions and a problem solving strategy that uses a modeling approach     *Gendered Paths into STEM.
