Meeting the Challenges to Measurement in an Era of Accountability Henry Braun, 2016-01-29 Under pressure and support from the federal government states have increasingly turned to indicators based on student test scores to evaluate teachers and schools as well as students themselves The focus thus far has been on test scores in those subject areas where there is a sequence of consecutive tests such as in mathematics or English language arts with a focus on grades 4 8 Teachers in these subject areas however constitute less than thirty percent of the teacher workforce in a district Comparatively little has been written about the measurement of achievement in the other grades and subjects This volume seeks to remedy this imbalance by focusing on the assessment of student achievement in a broad range of grade levels and subject areas with particular attention to their use in the evaluation of teachers and schools in all It addresses traditional end of course tests as well as alternative measures such as portfolios exhibitions and student learning objectives In each case issues related to design and development psychometric considerations and validity challenges are covered from both a generic and a content specific perspective The NCME Applications of Educational Measurement and Assessment series includes edited volumes designed to inform research based applications of educational measurement and assessment Edited by leading experts these books are comprehensive and practical resources on the latest developments in the field The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4 0 license

The Routledge Handbook of Language Program Development and Administration Alan V. Brown, Cori Crane, Beatrice C. Dupuy, Estela Ene, 2025-06-30 Second language program development and administration is a long standing area within the larger field of applied linguistics In many ways it is the quintessential applied linguistics field as it crosses disciplinary boundaries while balancing the rigors of scholarly inquiry with the demands of practical application without losing sight of concrete learner outcomes The Routledge Handbook of Language Program Development and Administration provides a scholarly rigorous yet practically relevant treatment of issues implicated in program development and administration with 52 chapters written by leading scholars in the field Authors not only address the theoretical underpinnings of their respective topics but also provide actionable evidence based recommendations concerning eminently

practical matters In this way the volume provides both novice and experienced language program administrators with important guidance on how to think about the work that they do and how best to go about it while also validating language program administration as a scholarly area of inquiry The Routledge Handbook of Language Program Development and Administration is essential reading for practicing second language program administrators at the post secondary level in service and pre service second language instructors graduate students in applied linguistics and even upper level undergraduate education students considering second language teaching as a future career *Current Trends in Language and Culture Studies* Yves-Antoine Clemmen, Margit Grieb, Will Lehman, 2013 This volume includes selected papers from the 20th Southeast Conference on Foreign Languages Literatures and Film held on March 2 3 2012 at Stetson University in DeLand Florida It represents a cross section of current approaches to questions of violence and trauma identity subjectivity and the national race and gender and teaching in foreign languages literatures and film *Technology-Assisted Language Assessment in Diverse Contexts* Karim Sadeghi, 2022-12-30 This timely collection explores the role of digital technology in language education and assessment during the COVID 19 pandemic It recognises the unique pressures which the COVID 19 pandemic placed on assessment in language education and examines the forced shift in assessment strategies to go online the existing shortfalls as well as unique affordances of technology assisted L2 assessment By showcasing international examples of successful digital and computer assisted proficiency and skills testing the volume addresses theoretical and practical concerns relating to test validity reliability ethics and student experience in a range of testing contexts Particular attention is given to identifying lessons and implications for future research and practice and the challenges of implementing unplanned computer assisted language assessment during a crisis Insightfully unpacking the lessons learned from COVID and its impact on the acceleration of the shift towards online course and assessment delivery it offers important guidelines for navigating assessment in different instructional settings in times of crisis It will appeal to scholars researchers educators and faculty with interests in educational measurement digital education and technology and language assessment and testing
