Hybrid Englishes and the Challenges of and for Translation Karen Bennett, Rita Queiroz de Barros, 2019-03-13 This volume problematizes the concept and practice of translation in an interconnected world in which English despite its hegemonic status can no longer be considered a coherent unified entity but rather a mobile resource subject to various kinds of hybridization Drawing upon recent work in the domains of translation studies literary studies and socio linguistics it explores the centrality of translation as both a trope for the analysis of contemporary transcultural dynamics and as a concrete communication practice in the globalized world The chapters range across many geographic realities and genres including fiction memoir animated film and hip hop and deal with subjects as varied as self translation translational ethics and language change As a whole the book makes an important contribution to our understanding of how meanings are generated and relayed in a context of super diversity in which traditional understandings of language and translation can no longer be sustained Considering University 2-Book Bundle Ken S. Coates, Bill Morrison, 2016-05-28 This two book bundle is an essential handbook for any student or parent considering university Learn why a degree is no longer a passport to success in today's job market Includes Dream Factories The good jobs of the past are almost gone Today many university graduates face unemployment while others face underemployment Professors Ken Coates and Bill Morrison explore the death of the good job and the role that universities have played in the disconnect between career fantasies and realities What to Consider If You're Considering University If you listen to the general chatter from parents guidance counsellors and politicians you would think that going to university is the only option that ensures future success That's no longer true This book is designed to help anyone under thirty make the best possible educational and career choices **The Letters of Jack London** Jack London, 1988 The standard edition of the remarkable American short story writer's letters Published in 1988

J. V. Prasad, 2014-03-21 The essays in this book look at the interaction between English and other Indian languages and focus on the pressure of languages on writers and on each other Divided into two parts the first part of the book deals with the pressure that English language has exerted and continues to exert in India and our ideas of connectedness as a nation in the ways in which we deal with this pressure The essays emphasise on the emergence of the hybrid language in the Tamil cultural world because of the presence of English and Hindi on the politics of anthologisation and how Karnad's Tughlaq deals with the idea of the nation looking at its historical location The second part of the book focuses on Indian English literature and deals with how it interacts with the idea of representing the Indian nation sometimes obsessively seen both in poetry and novels The book argues that the writer's location is crucial to the world of imagination whether in the novel poetry or drama The world is inflected by the location of the author and the struggle between the language dominant in that location and English is part of the creative tension that provides energy and uniqueness to writing
