

Tackling Texting While Driving: A Call for Change

6 pages | 1441 words

Texting while driving didn't become a global problem overnight, however rapidly, one fatality after the next, resulted in alarming statistics that can not continue to go overlooked, and while some households are requesting for justice, that could never ever replace the liked ones they have actually lost. Others are requiring a solution to the growing epidemic. In the United States alone, "over 6,000 deaths and half a million injuries are triggered by sidetracked chauffeurs each year." (Edgar Snyder and Associates, 2013). Cellular phone usage has actually been determined as the top diversion. Exists a genuine option to this problem? The response is yes, but it will require continued efforts from makers, police, together with the motorists themselves before this issue can be solved, diminishing the cost-effective, social, and political disruptions it has stirred up in the previous years. Our phones have ended up being smarter, thanks to innovators like Steve Jobs and his contributions to technological advancements during his leadership with Apple, while he was still alive. Not only did he forecast the needs of people before they knew the requirement existed, but as he created each Apple iPhone he brought consumers one step closer to safety. These electronic gadgets are so intelligent and delicate, that the voice of a human can be used to carry out commands that are directed towards them without touching the device. As discussed earlier, phones still impersonate a threat to chauffeurs, even with this new innovation, simply since they stay a distraction and not every mobile phone user is using their phone to its complete potential. This is where law enforcement need to can be found in to play their small part in limiting cellular phone use while driving. Currently in the state of Georgia, texting while driving is prohibited and those caught doing so will be ticketed and fined, and possibly deal with prison time for devoting this criminal activity. It may sound too minor to be punishable, however the innocent act of texting behind the wheel has actually taken lots of innocent lives. A stunning figure states that "driving an automobile while texting is 6 times more harmful than driving while intoxicated" (Alcohol Problems and Solutions, 2012). Texters should be mindful of this and meet their obligation of safeguarding the security of others while driving. Law enforcement and those in politics have a responsibility of making sure that those texting while driving are caught in their actions and punished accordingly. Those politicians in power that have the ability to enforce laws in the other states that have not yet made it illegal to text and drive, like Florida, for example should see to it that their power is used to do so. In the end, the life that they may be saving might just be their very own. Even more alarming than the texting while driving statistics is the fact that the majority of drivers are guilty of this crime, and most drivers feel that they are in control of the wheel and aren't a threat to other drivers or pedestrians, forgetting that it only take a split second for disaster to...

I Don't Text While Driving, Walking, or Standing Still Roger Dale Loring, 2016-06-27 Roger Dale Loring is a genuine baby boomer who finds his existence in the rapidly changing world rather perplexing. In his latest book he once again offers a collection of lighthearted essays about his dilemmas from the perspective of his current self if they don't have a senior discount. I'm not going there, age. Realizing that the aging process evolved in a way that his adolescent mind never envisioned, Loring now finds that his views on life changes are disturbingly similar to the views of the old people of his youth. People he frequently characterized as old fogies. His essays highlight his humorous take on life that include opinions about issues such as cell phone upgrades, a man's attention span while operating a television remote, seasonal purse shopping, the differing conversation patterns of men and women, the three hardest part-time jobs in America, the crazy world of politics where preaching to the choir dominates all campaigns, and of course the trauma of buying toothpaste. *Real Essays with Readings* Susan Anker, 2011-12-28 Real Essays delivers the powerful message that good writing, thinking, and reading skills are both essential and achievable.
