M.Latha,2017-06-11 The book gives an overview of Astrology concepts required to understand a horoscope The uniqueness of this book lies in having various complex fundamentals presented in a simple way to remember This makes thereaders of this book to grasp the concept quickly with interest The Author has made this book exclusively for novice or dummies who usually feel difficult in knowing the basics It helps them to learn the simple concepts with ease so that later they can read and learn advance concepts without much effort [Beginners Guide to Vedic Astrology](#) Fahad Khan,2015-02-12 It is said that everything is written even before the birth of the child His destiny is written and we are but a puppet in hands of God God has made this universe indeed and set rules that we may not know fully because God alone is the all knowing He in all probability has millions of rules and laws such as law of gravitation vaastu fengshui Chinese astrology vedic astrology numerology dowsing and not denying some sciences that we developed like Chemistry Physics God has set a path to run this world and these hidden knowledge were discovered only when God allowed This book teaches basics of understanding one of many rules and laws which we term as Vedic Astrology *LALKITAB in Vedic Astrology* Saket Shah,2020-02-26 Lal Kitab originally published in urdu language enshrines such effective astrological principles and remedial measures that it has rightly been termed as The Wonder Book of Astrology The science of palmistry too has been explained in such an exquisite manner that each of the 42 divisions of the human brain have been related to the different houses of a man s birth chart in such a scientific manner that the sketch of the human brain reflects accurately on the lines of the palm On the basis of these lines of the palm one can draw the actual horoscope of an individual and can do the placement of planets in various houses of the birth chart The date of birth and the birth ascendant can be found out by reading the lines and mounts of the palm which means that an individual s accurate birth chart can be drawn by seeing the lines of his palm Similarly by studying the different aspects of a man s residential house his birth chart can be accurately prepared on the basis of the sutras explained in the Lal Kitab **Vimshottari Dasha in Vedic Astrology** Saket Shah,2020-01-18 There are three important things for an event to take place in a native s life promise transit and Dasa For instance if your 7th house and the lord are positive and natal Jupiter and Venus are also placed well your chart has a strong promise of marriage but for it to take place transit Jupiter and Saturn should be influencing marriage related houses or lord 2nd 7th 11th Another major aspect for event occurrence is Dasa In Vedic Astrology different planets influence us at different points of time in our life The perceived life span of an individual is counted as 120 years in total Each planet is assigned certain number of years in one s life Our life is divided into Mahadasa of 9 planets and each Mahadasa is then further divided into 9 Antardasas each The Mahadasas follow in the following sequence Ketu Venus Sun Moon Mars Rahu Jupiter Saturn Mercury Mahadasa begins from the lord of the Nakshatra where is Moon positioned at the time of birth The exact duration of the first Mahadasa depends upon the degree of the Nakshatra when you were born Ketu Mahadasa runs for 7 years Venus

has 20 years Sun has 6 years moon has 10 years Mars has 7 years Rahu has 18 years Jupiter has 16 years Saturn has 19 years and Mercury has 17 years Mahadasa is like a calendar of your life's events Whether the Mahadasa is auspicious or inauspicious for you depends upon several factors like position of that planet in your birth chart whether it's malefic or benefic This duration of planets gives direction to the events in your life Mahadasa of each planet runs for several years but this doesn't mean that you get the results associated with a single planet only The actual results depend upon Antadasa Mahadasa of each planet is further divided into 9 planets Antardasas following the same sequence of planets The events of your life are based on both the Mahadasa and the Antardasa planets For example if you have Rahu Antardasa under Rahu Mahadasa events would follow as per Rahu's characteristics and strength in your horoscope However if you have Jupiter under Rahu then the results would be based on the position of both Jupiter as well as Rahu If the planets are positioned on 2 12 6 8 or 5 9 axis repercussions might not be that positive for the native The lordship of planets is also considered in the process If both planets are lords of Kendra or Trikona houses the results would be like that of a Raj Yoga If one has Kendra or Trikona lordship and the second planet is lord of 6th 8th or 12th house then the results might not be favorable Planet Mercury Secrets Saket Shah,2020-01-05 Have you ever heard a voice within inquisitive irritating and contemplating all the time Well it has to be Mercury the karaka of communication and wisdom according to Hindu Astrology Mercury is the ruler of that fragment of mind that can decide differentiate and reason the faculty that controls the subconscious thoughts and conscious actions and power of discrimination Its influence is strong Controlling travel finance logic and education Mercury can take you places if positioned strong in a horoscope It can make you a nonsense wreck or sagaciously sensible Mercury is responsible for how you express yourself to the outer world how you handle stresses and tackle unfortunate choices in life Though we are like buildings built brick by brick it is Mercury that helps present ourselves in the fullest form Dharma Trikona Saket Shah,2020-01-04 Dharma Artha Kama and Moksha are the fourfold goals of human existence These are the essence of Hindu way of life The great Hindu Seers and Sages of epic age namely Parashar Varahmihir Garga Jaimini and many others clearly laid down the theory and details of these goals thinking that the real purpose of human life lies in them They are defined as below 1 Dharma Religion means duty righteousness and virtue 2 Artha Wealth means success prosperity and fame 3 Kama Desires means fun pleasures and sensual delight 4 Moksha Salvation means liberation spiritual performances and union with God The first three out of these constitute the path of an active life called Pravratī the nature and temperament This Pravratī is to be gained in domestic life being a member of the society He is to discharge his duties as a householder and a citizen He is to acquire wealth gratify his legitimate desires and at the same time practice virtue The first stage of life for which his whole career has been a preparation is one of Nivratī the complete surrender and union with God and hence the Moksha Salvation Thus this formula Dharma Artha Kama Moksha that indicates the ideal of a complete life taking into account of all facts of human nature without doing violence either to the flesh or to the spirit is the base of

Chronicles of Hindu Astrology the concept of Overlapping Santanu Dey, 2021-08-23 The Chronicles of Hindu Astrology the concept of overlapping is a detailed research work on imposed planetary influences to predict our life events Planetary Influence is not a new word in the language of astrology Generally we judge a native's horoscope with the individual's natal chart and Dasha system We compute all the planetary influences and associations present in the specific Janma Kundali But practically each and every event of a Native's life gets influenced by the activities of his environment and the people around him Specially some qualities like motivation demoralization moral support and financial support from others may create a huge change in the lifestyle of a native Also it is observed that sometimes some special events like marriage child birth may create huge change in native's fate Overlapping is a very significant but simple way to understand the mutual effects of various surrounding charts over the main natal chart of a native Exactly which happens in calculation of the effects of Transit The transitional planets introduce beneficial or malefic effects depending upon their relative position with respect to the natal planets A beneficial and friendly planet introduces more strength and positivity when passing over the beneficial places like Trikona Any person carries the properties and effects of planetary placements in his or her birth chart When he or she makes a close relationship with another person these effects create some influence on that person These effects are called overlapping Concept of Overlapping Theory is a new idea in predictive astrology which is based on traditional and general Vedic astrological concepts and ideas The rules and functionalities of Parasharian Astrology adopted here But this is totally a new thought and very much effective for prediction and remedial measures without any external remedy
