Crafts and Creative

Media in Therapy Carol Tubbs, Margaret Drake, 2024-06-01 For more than 20 years *Crafts and Creative Media in Therapy* Fifth Edition has been an illuminating reference for the use of creative approaches in helping clients achieve their therapeutic goals. Carol Crellin Tubbs has included a range of craft and creative activity categories from paper crafts to cooking to the use of recycled materials and everything in between. Each chapter includes a brief history of the craft, several projects along with suggestions for grading or adapting, examples of related documentation, and a short case study. The text also features chapters on activity analysis, general strategies for implementation of creative activities and documentation, as well as a chapter describing the relevance of this media from both historical and current occupation-based perspectives. In this updated Fifth Edition, the craft projects have been updated and numerous resources and links for more ideas have been added. There are new chapters on making therapy tools and crafting with a purpose, and the recycled and found materials chapter has been expanded in keeping with cultural trends. A flow chart has been added to each case study to help students better understand the process and rationale for tailoring activities for individual client needs, and project suggestions for working on specific performance skills or client factors are scattered throughout the chapters. Other additions include a behavioral observation checklist as an aid in evaluation and documentation, and several illustrations to help students distinguish between the use of occupation as means and occupation as end. This Fifth Edition also includes an updated instructors manual with additional resources and suggestions for lesson planning. *Crafts and Creative Media in Therapy* Fifth Edition not only provides a wide assortment of craft ideas and instructions but also provides multiple suggestions for therapeutic uses for activities in each category. It includes ways to grade activities to best achieve therapy objectives and examples of documentation for reimbursement. For each craft category, there is discussion on precautions for use with certain populations, contextual limitations, and safety considerations. Information is presented in several different formats such as examples, tables, illustrations, and other formats to promote student understanding. Included with the text are online supplemental materials for faculty use in the classroom. *Crafts and Creative Media in Therapy* Fifth Edition is the foremost resource for using creative approaches in helping clients achieve their therapeutic goals and should be used by all occupational therapists, occupational therapy assistants, and recreational therapists.

Professional Care for the Elderly Mentally Ill Liz

Matthew, 2013-11-11. Services to older people with mental health problems have gone through radical change in recent years. Legislation has had a profound effect by dictating how care to older people is delivered both within hospital and within the community. The recent government agenda emphasizes cost effectiveness, value for money and accountability. This too is an important driving force in re-evaluating the service, although not everyone would agree with many of the proposed strategies and there are clearly different views as to the appropriateness of many of the services. One thing is certain, however, the move towards interdisciplinary working is here to stay. Not all change has been led by legislation and many innovations have been founded in the day-to-day practices in the care of older people with mental health problems. A service of course does not become integrated merely by imposing joint working on a number of professionally based disciplines and in many ways this may not be desirable. At its worst it produces duplication where people from different backgrounds are all doing the same job. This is not the intention of joint working; instead it should attempt to improve the quality of service by a rich mix of skills and experience from a number of related disciplines.

Rehabilitation Engineering Alex Mihailidis, Roger Smith, 2022-11-15

This book will provide an overview of the rehabilitation engineering field including key concepts that are required to provide a solid foundation about the discipline. It will present these concepts through a mix of basic and applied knowledge from rehabilitation engineering research and practice.
