The Natural World and Science Education in the United States Ajay Sharma, Cory Buxton, 2018-04-04 This book focuses on the representation of nature in science education in schools in the United States Given the importance of our relationship with the nonhuman world for the fate of our planet this work gives special attention

to the representation instruction and understanding of the relationship between the social and the natural world It also proposes an alternative sustainability science based conceptual framework for ecology and environmental science topics in science education which is compatible with the current social ecological understanding of life in the Anthropocene epoch
