**The Regulation of Franchising in the New Global Economy** Elizabeth Crawford Spencer, 2010-01-01 While franchising promotes economic and social welfare objectives Elizabeth Crawford Spencer argues that monitoring and regulation are needed to address potential areas of abuse of the form that can result in costly market inefficiencies This unique study surveys franchise specific legislation worldwide as a starting point for a thorough examination and analysis of the role of both private and public regulation of the sector in the context of current theoretical approaches to regulating contractual relationships The book concludes that properly calibrated regulation can minimize inefficient allocations of power and risk and lead to maximum economic and social benefits by promoting the development of small business enabling the growth of entrepreneurial skills and facilitating economic well being and independence among SMEs This comparative survey will prove to be invaluable for academics in franchising marketing management law and practice The Regulation of Franchising in the New Global Economy will also appeal to franchise law practitioners consultants policymakers and those wishing to influence policy on all sides of the debate in the many jurisdictions that are engaging in the processes of adopting or reviewing franchise regulation

**The Law and Regulation of Franchising in the EU** Mark Abell, 2013 Mark Abell's book argues that the European franchising market fails to reach its potential as it remains unregulated He supports this by analysing the historical legal and economic basics and risk attraction profiles of franchising to franchisors and franchisee compares the European situation to the highly developed regulatory regimes in the USA and Australia and moves through to proposing and drafting a new EU directive to bring greater certainty and stability to cross border franchising in the EU Comprehensively researched and very detailed this book is a worthy contribution to the literature on the subject Graham Cunningham Barrister Hardwicke Key features of this detailed and insightful work include Practical analysis from a leading authority in the field of franchising Examination of the impact of both franchise specific and general commercial law upon use of franchising in the EU Comparative legal analysis of the law of England Germany France the US and Australia Carefully constructed proposals for a franchise directive in the EU based on the vast experience of the author A draft text for the proposed directive The Law and Regulation of Franchising in the EU provides an in depth analysis of the regulatory environment for franchising in the EU Franchising in the EU comprises nearly 10 000 franchised brands and over 215 billion US 300 billion turnover per annum However compared to its scale in the US

and Australia franchising is not realising its full potential in the EU and the author points to the lack of homogeneity across members states as a large part of the problem The book concludes by arguing for the adoption of a draft directive and proposes a draft directive which promotes market confidence in franchising provides pre contractual hygiene and imposes a mandatory taxonomy of rights and obligations This highly topical and comprehensive work will appeal to franchise lawyers and franchise academics as this is the first book that analyses the impact of EU and member state law upon the use of franchising in the EU     International Franchise Sales Laws Andrew P.
