Resistance Advocacy as News Benjamin Rex LaPoe II, Victoria L. LaPoe, 2018-01-30 Resistance Advocacy as News Digital Black Press Covers the Tea Party examines the Black and mainstream press's digital interpretations of the Tea Party during President Barack Obama's first term The Tea Party narrative and the white ideologies disseminated by conservative groups was and continues to be an intricate story for journalists to tell This book tracks coverage of the Tea Party from the modern group's beginning in early February of 2009 until two weeks after the 2012 general presidential election in November While many mainstream journalists either fail to recognize or ignore all together the racial component that the Tea Party poses to Black solidarity this book shows that Black reporters working for the Black press absolutely recognize the racial component and provide more thorough discussions than their mainstream counterparts Historically the Black press has existed to fill holes of misrepresentation in the mainstream press to that end this book addresses questions surrounding the ongoing necessity of the Black press and whether our society is postracial combining a quantitative analysis of implicit racial frames with a qualitative analysis of resonant myth and providing empirical evidence that Black people still struggle to have their voices heard in the mainstream press

Palestine-Israel in the Print News Media Luke Peterson, 2014-10-24 Israel Palestine in the Print News Media Contending Discourses is concerned with conceptions of language knowledge and thought about political conflict in the Middle East in two national news media communities the United States and the United Kingdom Arguing for the existence of national perspectives which are constructed distributed and reinforced in the print news media this study provides a detailed linguistic analysis of print news media coverage of four recent events in the Palestinian Israeli conflict in order to examine ideological patterns present in print news media coverage The two news communities are compared for lexical choices in news stories about the conflict attribution of agency in the discussion of conflict events the inclusion or exclusion of historical context in explanations of the conflict and reliance upon essentialist elements during and within print representations of Palestine Israel The book also devotes space to first hand testimony from journalists with extensive experience covering the conflict from within both news media institutions Unifying various avenues of academic enquiry reflecting upon the acquisition of information and the development of knowledge this book will be of interest to those seeking a new approach to the Palestinian Israeli conflict

Revealing Media Bias in News Articles Felix Hamborg, 2023-02-24 This open access book presents an interdisciplinary approach to reveal biases in English news articles reporting on a given political event The approach named person oriented framing analysis identifies the coverage's different perspectives on the event by assessing how articles portray the persons involved in the event In contrast to prior automated approaches the identified frames are more meaningful and substantially present in person oriented news coverage The book is structured in seven chapters Chapter 1 presents a few of the severe problems caused by slanted news coverage and identifies the research gap that motivated the research described in this thesis Chapter 2 discusses manual analysis concepts

and exemplary studies from the social sciences and automated approaches mostly from computer science and computational linguistics to analyze and reveal media bias This way it identifies the strengths and weaknesses of current approaches for identifying and revealing media bias Chapter 3 discusses the solution design space to address the identified research gap and introduces person oriented framing analysis PFA a new approach to identify substantial frames and to reveal slanted news coverage Chapters 4 and 5 detail target concept analysis and frame identification the first and second component of PFA Chapter 5 also introduces the first large scale dataset and a novel model for target dependent sentiment classification TSC in the news domain Eventually Chapter 6 introduces Newsalyze a prototype system to reveal biases to non expert news consumers by using the PFA approach In the end Chapter 7 summarizes the thesis and discusses the strengths and weaknesses of the thesis to derive ideas for future research on media bias This book mainly targets researchers and graduate students from computer science computational linguistics political science and further social sciences who want to get an overview of the relevant state of the art in the other related disciplines and understand and tackle the issue of bias from a more effective interdisciplinary viewpoint

The Measurement of Media Reputation Xiaoqun Zhang, 2019-07-25 The Measurement of Media Reputation investigates the efficacy of different measurements of media reputation, the overall evaluation of the media coverage of a corporation and a strategic resource used to improve media coverage. Xiaoqun Zhang develops a new composite measure that combines three dimensions of media coverage: visibility, favorability and recency. Zhang conducts multiple tests comparing the validity of his new composite measure against existing measures of media coverage, arguing that the new measure has both theoretical implications for extending the application of media effects theories to other realms such as political and business communication and practical implications as a resource for corporations to achieve competitive advantages.

Framing Austerity Aileen Marron, 2021-05-25 This monograph examines the ways in which discourses on the public sector were articulated in the print media during the 2011 financial crisis in the Irish UK and European news media. It finds that coverage of the public sector was ideological, portraying public sector workers as overpaid, inefficient and sheltered from the worst of the crisis. These explanations perpetuated the view that there was a need for austerity through cutbacks to public services and public sector pay. The central thesis is that these representations must be understood as being part of the complex organisational culture of the newsroom. Additional themes explored in the book include but are not limited to: Media ownership, concentration and journalistic self-censorship; The marketisation of news and its impact on journalistic practice; The casualisation of the newsroom; The fourth estate function of the media; The discourse of austerity; Neoliberalism as a dominant ideology; Reflexivity in the newsroom; The crisis of credibility in journalism; Media portrayals of The Looney Left versus the Reasonable Right.

Sampling Normal and Schizophrenic Inner Experience Russell T. Hurlburt, 2012-12-06 What are the basic data of psychology? In the early years of experimental psychology they were reports of brighter or heavier or other estimates of the magnitude of differences between the sensory stimuli presented in psychophysical experiments. Introspective accounts of the experience of seeing colored lights or shapes were important sources of psychological data in the laboratories of Cornell, Harvard, Leipzig or Würzburg around the turn of the century. In 1910 John B. Watson called for the objectification of psychological research, even parodying the typical subjective

introspective reports that emerged from Edward Bradford Titchener's laboratory. For almost fifty years, psychologists largely eschewed subjective information and turned their attention to observable behavior. Rats running mazes or pigeons pecking away on varied schedules of reinforcement became the scientific prototypes for those psychologists who viewed themselves as doing science. Psychoanalysts and clinical psychologists sustained interest in the personal reports of patients or clients as valuable sources of data for research. For the psychologists, questionnaires and projective tests that allowed for quantitative analysis and psychometrics seemed to circumvent the problem of subjectivity. Sigmund Freud's introduction of ongoing free association became the basis for psychoanalysis as a therapy and as a means of learning about human psychology. Slips of the tongue, thought intrusions, fantasies, hesitations, and sudden emotional expressions became the data employed by psychoanalysts in formulating hypotheses about resistance, memory transference, and a host of presumed human wishes and conflicts.

Evolution of the Modern Sports Fan Andrew C. Billings, Kenon A. Brown, 2017-03-21. The concept of fandom has been revolutionized over the past 20 years because of various technological, cultural, and communicative advancements. *Evolution of the Modern Sports Fan: Communicative Approaches* explores the elements of the sports fan that have markedly changed since the turn of the century. Inherent within these investigations is the role of communication in a multitude of forms: mediated, relational, etc. as the prototypical sports fan has most heavily shifted within this domain. From the advent of social media to the rise of fantasy sport to the increased media platforms in which to consume sport, the sports fan has never had more options for consumption and for the rendering of his/her opinions. This edited volume offers an opportunity to advance what we now know about American sports fandom, as well as the ability to debunk what scholars thought they knew about sports fandom that has now shifted.

Last Man Standing Danielle Sarver Coombs, 2013-11-14. When Barack Obama was re-elected president in November 2012, his Republican challenger Mitt Romney took the blame for being alternately too moderate or too conservative. Critics from both within and outside of his party claimed his vast wealth made him unappealing to voters and that his robotic persona meant he just could not connect. How then did he win the nomination? What happened during the twelve-month build-up to Romney being named the presumptive nominee for the Republican Party that helped define him as both a man and a candidate? Furthermore, how did media coverage frame his competitors and the race itself, a contest characterized by its rollercoaster nature? *Last Man Standing* examines mainstream media coverage of the 2012 Republican primary season to identify and examine the frames used to make sense of the candidates and the race. Through an exhaustive analysis of candidate-related coverage from six major media outlets (The New York Times, Wall Street Journal, and Washington Post for newspapers; CNN, Fox News, and MSNBC for cable news networks), Coombs weaves her examination of media frames into a compelling narrative reconstruction of the 2012 primary season. This book features an exhaustive analysis of mainstream media coverage over a twelve-month period. Smart, insightful exploration of media frames. Chronological structure which allows for analysis to address how frames shift with candidate's fortunes.
