Ramsey, 2009 I had several ah ha moments while reading this book Kudos to the author for creating a meaningful guide for today's school administrator Marie Blum Superintendent Canaseraga Central School District NY A good tool for administrators and teacher leaders with its readability content emphasis and real life examples Russ Bennett Superintendent Aurora City Schools OH Time tested techniques for communicating effectively with all educational stakeholders For school leaders being an effective communicator is one of the most vital and sometimes most challenging parts of the job This user friendly resource provides practical strategies for improving daily interactions with students colleagues parents and other stakeholders as well as guidelines for avoiding missteps when critical issues arise Each chapter presents do's and don'ts for effective verbal and written communication in a variety of situations from public speaking and working with the media to straight talk for approaching students about sensitive topics such as sex gangs and substance abuse This revised edition also assists educators with How to's for dealing with natural and man made disasters A new chapter on differentiating communication to reach a wide audience A new section on communicating with school board members Use the tools and real world examples in this invaluable reference to resolve difficult situations and build positive relationships Teacher Evaluation Kenneth D. Peterson, 2000-05-19 The original edition published in August 1995 challenges current teacher evaluation and school practice The book discusses stages of teacher choice teacher responsibilities for evaluation and suggests ways for teachers to become more involved and in control of their own evaluation Combining information and techniques from his academic studies and evaluation experiences Peterson presents a coherent field tested set of new practices for teacher evaluation The revised edition adds new chapters on the role of the principal in changed teacher evaluation how districts can transition from current practice to improved practices the use of national standards developments in using pupil achievement data and puts a new emphasis on developing sociologically The Internet as a resource for local development is encouraged 67 web sites are recommended as starting points New resources for local development have been added from extensive field testing and analysis forms have been improved and district level principles have been assembled Substantial material has been added on the topic of responding to deficient teacher practice Finally the research literature has been augmented *I Mattered a Teacher's Story* Dr. Frankie J. Monroe-Moore, 2012-02-21 In *The New Meaning of Educational Change* Fullen wrote Low morale depressed feeling unfairly blamed for the ills of society You must be a teacher This quote spoke volumes to me as I watched politicians jockeying for position by spewing their recycled political rhetoric and then launch an all out attack against public school teachers In years

past these attacks had been levied against those receiving social security Medicare and Medicaid which mainly affected the poor disabled and elderly Dont get me wrong these issues are still on the table but I guess politicians felt they had beaten them with a dead horse and needed another soft target to spark the publics interest so public school teachers was it They struck with a vengeance firing public school teachers by the thousands throughout the country In an attempt to reduce the collective bargaining power of teacher unions such as American Federation of Teacher AFT in Texas they claimed the only way they knew to help balance the state and district school budget shortfalls was to rescind some of the benefits they had agreed too It hurts when the profession Ive dedicated over half of my adult life 25 yrs to is under attack by politicians and others that have no true concept of whats involved in being a public school teacher We have absolutely nothing to do with the decision making process First were told to do one thing and then were told to do something entirely different Its almost schizophrenic To all of my colleagues that remain on the frontlines of public education and those that are planning to take up the banner This books for you You might not have control over the decisions being made outside your classroom but you can control those things going on inside I provide ways to control student behavior by the design of your classroom to the use of a simple yellow tablet
