*\*Directions: Read the following essay. Along with the overhead, breakdown the structure of the essay. ALL PERSUASIVE ESSAYS NEED TO LOOK LIKE THIS!!!*

As the teacher calls on Jimmy to give his opinion on the topic the class was discussing, she can't help but notice the incredible wad of bright pink chewing gum in his mouth. Not only will it be hard to understand Jimmy, but also she'll be lucky if Jimmy can get out his thoughts without choking on the mouthful! This is only one of the many concerns teachers face daily as chewing gum continues to show up in classrooms, despite the school rule that it is banned. Students should not chew gum in class because it acts as a distraction to others, it is a health issue, and it is a safety issue. If students continue to disregard the rules, consequences will need to become more severe.

Chewing gum acts as an incredible distraction to students and teachers. It has become a common practice for some students to be known as "suppliers" of gum. These students will bring multiple packs of gum to school to share with their friends and classmates. It seems to be quite an epidemic when one student asks the "supplier" for a piece of gum. Suddenly everyone feels the need to do the same thing. This can take away valuable class time and makes many students lose focus on the topic being discussed. In addition, once the students have gum it appears that the need arises to chew this gum with such force that one would think it was the last piece of gum on earth. The open-mouthed, "chewing like a cow" that occurs is absolutely the most annoying thing in the world! The distraction factor alone is enough for most teachers to want gum out of their classrooms.

**Literacy Pedagogy for Preservice Elementary Teachers** Nancy A. Wasser,2021-08-16 I just cannot write or I am not a good writer are familiar complaints from students in academia Many of them claim they cannot express themselves clearly in written text and their lack of this skill impedes them in their academic career In this book Nancy A Wasser argues that teachers can help solve this when they start viewing writing not as secondary to reading but as the equally important side of the same coin Those who cannot read will not be able to write Wasser explains how teaching and regular practicing of writing skills from an early age onwards helps children grow into students who are self aware of their voices By employing narrative as a process of learning to write and a way to read teachers can teach children the art of writing while also making children more aware of their own constructions of narrative Combining the focus on individual and group expression in writing lessons students can trace and reflect on their own life transformations through their writing process Good writers are not born that way but made through effort and practice Changes in curriculum may not only lead to better expressed citizens but also to more balance between teacher and children voices      *Science the "write" Way* Jodi
