Technology in Social Work Education and Curriculum Florence W Vigilante, Richard L Beaulaurier, Martha F Haffey, 2016-05-06 Save time and trouble as you incorporate technology into your social work curriculum. The dramatic increase in the use of computers and other forms of technology in social work education and practice has educators, trainers and administrators investing valuable time, money and effort into trying to make the transition from traditional teaching to a Web-assisted learning environment. *Technology in Social Work Education and Curriculum* takes the mystery out of the online experience with practical information on using technology to enhance and enrich learning but not at the expense of the human approach to social work. This unique book presents a variety of creative and interesting methods for incorporating technology that is affordable and user-friendly and for developing online skills that won't become obsolete as computer hardware and software evolves. *Technology in Social Work Education and Curriculum* transforms technology into an everyday resource for agency field instructors, human service educators, trainers and social work administrators. The book addresses concerns that educators with limited technical skills may have in using technology to teach cultural competency, group work, research, direct practice, social policy and advocacy and field practicum, presenting hands-on approaches that are innovative but accessible. And by focusing on approaches rather than simply reviewing available hardware and software, the book provides you with background knowledge that makes it easier for you to
