

Letter of Recommendation for Co-Worker

December 5, 2015

To Whom It May Concern

I am extremely pleased to write this letter of recommendation for David Bentley. David and I worked collaboratively at Humphrey Delta for nine years and I found him a conscientious and very hardworking professional. One of the main reasons that David and I have been successful co-workers on almost every project that the company has been entrusted with is his ability to delve into details. In his role as a marketing manager at Humphrey Delta, he came across many challenges; his reason for success in meeting all these challenges head-on is his ability to chart out his limitations. He is never shy of asking for help and takes constructive criticism quite well.

During the years that I have worked with David, I have had the opportunity to observe his interpersonal style – he is a pleasant individual who believes in positive motivation and his staff is never dissatisfied under his supervision. I would describe him as a dedicated and enthusiastic individual who has a great penchant for meeting deadlines. David is an accomplished multitasker who has ensured the efficacy of many projects.

I fully recommend David for a position of marketing director with your company as I am positive of his ability to undertake even the most complex of work. Please feel free to call me at (000) 666-6666 if you would like me to further elaborate on David's abilities.

Regards,

his consideration of academic freedom sexism merit tenure and other such highly charged subjects Lewis examines the attitudes of those in universities toward academic qualification The modern rule of thumb has become publish or perish According to Lewis however research and publication may not be such prime considerations after all Two thought provoking chapters are devoted to an examination of letters of recommendation as important factors in hiring and promoting in the academic world Lewis also scrutinizes academic freedom cases from the archives of the American Association of University Professors Other intriguing issues examined by Lewis are how spouses and significant others factor into whether or not a professor gets a promotion a typical day in the life both academic and personal of a professor how the celebrity syndrome has spread to campus discrimination against women and bureaucracy as a contributing factor to campus unrest In the new introduction Lewis affirms that the most apparent changes in higher education since *Scaling the Ivory Tower* was initially published have actually made the campus less meritocratic and less a place where quality academic work is recognized and rewarded One contributing factor is the necessity to consider age gender ethnicity and race in personnel decisions Because many on campus are convinced that academic life can only be improved when the demographics of faculty reflect those in the larger society departments are routinely expected to explain why they did not fill an opening with someone from an underrepresented group While showing some irreverence toward academia *Scaling the Ivory Tower* should also provoke sober consideration of where our colleges and universities are headed This is a significant volume for university administrators academics and graduate students
