

REPLACING THE TONER CARTRIDGE

Click this link to open an animation about replacing a toner cartridge.

When the toner cartridge is completely empty:

- A message informing user to change the toner cartridge appears on the display.
- The machine stops printing.

At this stage, the toner cartridge needs to be replaced. Check the type of the toner cartridge for your machine. (See "Available supplies" on page 73.)

1. Open the front cover.
2. Pull the toner cartridge out.

3. Remove the new toner cartridge from its bag.

4. Slowly shake the cartridge five or six times to distribute the toner evenly inside the cartridge. It will assure maximum copies per cartridge.

- If toner gets on your clothing, wipe it off with a dry cloth and wash clothing in cold water. Hot water sets toner into fabric.

- Do not touch the green underside of the toner cartridge. Use the handle on the cartridge to avoid touching this area.

5. Remove the paper protecting the toner cartridge by pulling the packing tape.

6. Hold the toner cartridge by the handle and slowly insert the cartridge into the opening in the machine.

Tabs on the sides of the cartridge and corresponding grooves within the machine will guide the cartridge into the correct position until it locks into

place completely.

7. Close the front cover. Make sure that the cover is securely closed.

NECESSARY PRECAUTIONS TO TAKE WHEN INSTALLING ACCESSORIES

- Disconnect the power cord. Never remove the control board cover while the power is turned on. To avoid the possibility of an electrical shock, always disconnect the power cord when installing or removing ANY internal or external accessories.
- Discharge static electricity. The control board and internal accessories (network interface card or memory module) are sensitive to static electricity. Before installing or removing any internal accessories, discharge static electricity from your body by touching something metal, such as the metal back plate on any device plugged into a grounded power source, if you walk around before finishing the installation, repeat this procedure to discharge any static electricity again.
- Activating the added accessories in the PS driver properties. After installing an accessory such as an optional tray, PS driver users must do the additional setting. Go to the PS printer properties and set the added accessory activated.

When installing accessories, the battery inside the machine is a service component. Do not change it by yourself. There is a risk of an explosion if battery is replaced by an incorrect type. Dispose used batteries according to the instructions.

ACTIVATING THE ADDED ACCESSORIES IN PRINTER PROPERTIES

After installing added accessories, you need to select it in the printer properties of the printer driver in order to use it.

1. Install the driver. (See "Installing USB connected machine's driver" on page 26, "Installing network connected machine's driver" on page 30.)
2. Click the Windows **Start** menu.
 - For Windows 2000, select **Settings > Printers**.
 - For Windows XP/2003, select **Printers and Faxes**.
 - For Windows Vista, select **Control Panel > Hardware and Sound > Printers**.
3. Select the your machine's driver and right-click to open **Properties**.
 - For PS driver, select PS driver and right-click to open **Properties**.
4. In printer driver properties, select **Device Options**.
 - For PS driver, select **Device Settings**.
