Royce

Clark, 2022-02-03 W Royce Clark observes that humanity appears to be jeopardizing our own future in a chaos of mutual antagonism and hypocrisy. Religions have traditionally provided ethical guidance but because their absolutized metaphysics are incompatible with each other we cannot rely on any one of them in a religiously pluralistic culture. The ethics of various religions are also built on theocratic or authoritarian foundations which are incompatible with any democratic society. Finally many of their premises are very ancient so not relevant or appropriate in our modern scientific world. The Western Enlightenment brought challenges against religion's singularity, exclusivity, heteronomy, and anti-scientific assumptions, all of which disrupted their ethics and the Absolute metaphysical grounds upon which those ethics rested, raising the question of whether a freestanding ethic was possible. Inasmuch as the primary claim of most religions was regarded as beyond challenge but was a conflation of history and myth, the modern historical method created more doubt than certainty about such allegedly certain doctrines as Jesus is the Son of God. By the end of the 20th century the impossibility of validating such primary Christological claims from a historical approach became evident despite the articulate attempts at credibility in the brilliant works of John Dominic Crossan and Wolfhart Pannenberg which remained unconvincing in important ways. Between 1832 and 2014 innovative Christian theologians such as Schleiermacher, Hegel, Tillich, and Scharlemann took a detour from the futility of historical verification. This study examines their remarkable attempts at a form of corroboration of the basic Christological claim even if their primary interests were more in Christology than ethics. The question Clark takes up here is whether or not these figures have thereby provided a base for a universal ethic or the only answer is for principles freestanding from any religion.

Religious Education, 1924 *The Superiority of an Evangelical Model of Religious Liberty* Daniel J. Trippie, 2022-11-14 Religious liberty is America's first freedom. But in recent years challenges to religious liberty have abounded. For example, some claim that religious freedom promotes intolerance and bigotry while others contend religious freedom condemns people to hell. And others weaponize religious liberty for culture warring. Nevertheless evangelicals believe that religious liberty is fundamentally a matter of human dignity; thus religious liberty is a right we must preserve for all people. This book will explore how evangelical anthropology, cosmology, and eschatology offer the most stable basis for religious freedom. Secular and Roman Catholic theories may positively contribute to religious liberty but the evangelical model is superior because it answers fundamental questions left unanswered in other models.
