This collection is a wonderful opportunity for the preservation of many traditions now being hard to catch in a living performance of the 21st-century. I think about those dancers and their lives and traditions being as unknown as the steps I collected on this stage. Some collections in the collection and their dance practices reflect on the different ways that they, those people, might not be connected with other people in other times, places and stages. In one of the dance pieces developed for this new stage, the book is a gift from that and we are changed while going out to tell the story of dance as art. The *Waves* collection provides a look and working context for the 21st-century in dance and stage and a collection for the future.
