Emerson May, 2012-12-14 The original working paper used by the army CRV group at Fort Meade in the 1980s and 1990s This was designed to be an internal document but was released to the public in the 1990s It is now a public document which has been edited into book format **CRV - Controlled Remote**

Viewing Daz Smith, 2013-06-05 This book is a compilation of papers manuals comments to help students of CRV or Controlled Remote Viewing learn this amazing intuitive art We present FOIA documents from the CIA Star Gate archives from the public domain and from prominent practitioners of remote viewing for the first time together in one book First we include a paper from the father of Remote Viewing and the creator of CRV Ingo Swann The document is titled Co ordinate Remote Viewing CRV technology 1981 1983 Three year project After this we present two differing CRV manuals The first by Ingo Swann s top CRV student and the only person trained in all CRV stages by Ingo Swann Tom McNear This is titled Coordinate Remote Viewing Stages I VI and Beyond 1985 The second a later manual was created primarily by Paul H Smith with help from the then team of military Controlled Remote Viewers titled The DIA CRV Manual 1986 **The Coordinate**

Remote Viewing Manual Paul Smith, CRV Group Staff, 2011-05-25 The document was created but not copyrighted by the army remote viewing group in the 1980s The primary author was Paul Smith but was assisted and edited by other members It was originally believed that Ingo Swann wrote the manual but he denied this Eventually Paul Smith revealed that he and others wrote it as an internal document **CIA Remote Viewing Manual** Central Intelligence Agency, 2017-12-26

Information in the United States on psychic research in some foreign countries was sketchy and poorly detailed based mostly on rumor or innuendo from second hand or tertiary reporting attributed to both reliable and unreliable disinformation

sources from the Soviet Union The CIA and DIA decided they should investigate and know as much about it as possible Various programs were approved yearly and re funded accordingly Reviews were made semi annually at the Senate and House select committee level Now for the first time you can read the actual CIA Remote Viewing Manual and see how they did it **Remote Viewing Secrets** Joseph McMoneagle,2000 Remote viewing is not simply using psychic ability to obtain information It is using scientific protocol to develop and extend that ability so that ordinary people can learn to do what psychics do This book teaches you how to teach yourself McMoneagle believes that anybody can be trained in remote viewing no psychic gifts required However it requires a huge commitment and a highly disciplined mind Using the analogy of martial arts McMoneagle sees RV training in levels starting with white belt where viewers can expect to see a gestalt an overall impression of a target By the time readers reach the red black belt great master McMoneagle claims they will have gained a near perfect union of one s paranormal talent blended within extant reality People who reach this level no longer have to think about it they simply do Although readers won t become great masters by reading this one book McMoneagle does provide a comprehensive training program as well as important chapters on the ethics protocol and applications of remote viewing McMoneagle is the authority in this area He learned remote viewing in the U S Army he was Remote Viewer 001 in the Army s Stargate program and was awarded the Legion of Merit for his contribution to various intelligence operations

literature and belief Telepathy clairvoyance precognition and telekinesis these attributes of the paranormal mind are widely dismissed as nonsense but what can an exploration of such pseudoscientific phenomena tell us about accepted scientific and cultural thought In *Parascientific Revolutions* Derek Lee traces the evolution of psi epistemologies across the twentieth and twenty first centuries to uncover how these ideas have migrated into scientific fields such as quantum physics and neurology as well as diverse literary genres including science fiction ethnic literature and even government training manuals Lee introduces the groundbreaking concept of parascience a dynamic cultural space where ideas rejected by the scientific establishment blend with alternative strains of literary mythic and philosophical thought to regenerate and return to mainstream discourse From early modernist works by James Joyce to postwar speculative fiction by Philip K Dick to ethnofuturist narratives by Ruth Ozeki *Parascientific Revolutions* demonstrates how cultural and intellectual currents reshape paranormal ideas over time Examining psychic surveillance programs like Project Stargate and bizarre particles of extrasensory perception such as the psitron Lee illustrates the ways paranormal concepts persist and evolve to influence culture Presenting pseudoscience as an inevitable by product of the scientific process *Parascientific Revolutions* offers fresh insight into how the paranormal mind continually challenges our understanding of knowledge and belief It invites readers to reconsider the boundaries between science and the unknown revealing a world where speculative thought and empirical investigation are deeply intertwined Retail e book files for this title are screen reader friendly with images accompanied by short alt text and or extended descriptions

Real Magic Dean Radin, PhD, 2018-04-10 The chief scientist at the Institute of Noetic Sciences IONS turns a critical eye toward such practices as telepathy clairvoyance precognition and psychokinesis Are such powers really possible Science says yes According to noted scientist and bestselling author of *The Conscious Universe* Dean Radin magic is a natural aspect of reality and each of us can tap into this power with diligent practice But wait aren't things like ESP and telepathy just wishful thinking and flights of the imagination Not according to the author who worked on the US government's top secret psychic espionage program known as Stargate Radin has spent the last forty years conducting controlled experiments that demonstrate that thoughts are things that we can sense others emotions and intentions from a distance that intuition is more powerful than we thought and that we can tap into the power of intention think The Secret only on a more realistic and scientific level These dormant powers can help us to lead more interesting and fulfilling lives Beginning with a brief history of magic over the centuries what was called magic two thousand years ago is turning out to be scientific fact today a review of the scientific evidence for magic a series of simple but effective magical techniques the key is mental focus something elite athletes know a lot about Radin then offers a vision of a scientifically informed magic and explains why magic will play a key role in frontiers of science
