⑤ Programming the Remote Control

IMPORTANT SETUP NOTE:

There are three ways you can program your remote:

* **Quick Set-Up Method**
* **The Pre-Programmed 3-Digit Code Method**
* **The Auto-Search Method**

The Quick Set-Up Method is a unique feature that enables the fastest and easiest setup by using a 1-digit code. Most of the pre-set keys found on devices made by popular manufacturers.

The Pre-Programmed Code Method allows you to setup all of the buttons at once by entering 3-digit code numbers that correspond with the components manufacturer/brand. Code tables for this method are on the backside of the operating instructions.

The Auto-Search Method scans through all of the codes in the remote control, one at a time allowing you to identify the correct code.

IMPORTANT SETUP NOTE:

This performs all programming codes. When you are trying to enter the device LED during the 30 seconds, if you fail to press a button within 30 seconds, the LED light will turn off and setup process, and you will need to start over.

A. Quick Set-Up Method

STEP 1 Turn on the equipment you want to program. To program your TV, turn on the TV.

STEP 2 Point the remote at the component and press and hold the DEVICE key for 4 seconds until the Device LED blinks off and turns back on. Continue holding the DEVICE key, press the number keys one at a time, starting with 1, then 2, 3, 4. Stop pressing the number keys when the device turns off.

STEP 3 Release the DEVICE key to save the code. The Device LED will blink twice to confirm the code is stored.

Repeat the steps above for all components (CBL, TV, VCR, DVD, AUX).

B. Pre-Programmed 3-Digit Code Method

STEP 1 Turn on the equipment that you want the remote control to operate (Cable Box, TV, VCR, DVD, etc.).

STEP 2 Press the DEVICE button and the OK/SEL button simultaneously for three seconds. The corresponding device LED will turn on indicating that it is ready to be programmed. The LED will remain on for 30 seconds. The next step must be entered before the LED is on.

STEP 3 Point the remote control toward the equipment and enter the three-digit code number assigned to your brand from the code tables. If there are more than one three-digit number listed for your brand, try one code number at a time until your equipment turns off.

Note: Blah blah blah...

STEP 4 Store the three-digit code by pressing the same DEVICE button once again. The device LED will blink twice to confirm that the code has been stored.
