*Screen Design Manual* Frank Thissen, 2003-09-11 The Screen Design Manual provides designers of interactive media with a practical working guide for preparing and presenting information that is suitable for both their target groups and the media they are using. It highlights background information and relationships, clarifying them with examples and encourages the further development of the language of digital media. In addition to the basics of perception and learning psychology, ergonomics, communication theory, imagery research, and aesthetics, the book also considers design navigation and orientation elements. Guidelines and checklists along with the comprehensive design of the book support the transfer of information into practice. Frank Thissen teaches multimedia didactics and information design at the University of Applied Sciences in Stuttgart. For over 10 years, he has been developing computer-based training. He has worked for international companies such as Siemens AG and SAP AG. His research project explores the role of emotion in e-learning. [www.frankthissen.de](http://www.frankthissen.de) Key Topics: Interactive media, Text for the screen, Effective use of pictures, Video animation and sound, Screen layout, Orientation and navigation, Interaction, Emotions and metamessages, Intercultural communication. *Autocar*, 2005

**Describing Discourse** Nicola Woods, 2014-05-12 For anyone approaching Discourse Analysis for the first time, theory means little when it is not related to actual knowledge and experience of language in use. *Describing Discourse* takes the unique approach of introducing discourse studies through the hands-on analysis of linguistic data. The book introduces students to specific discourses constructed for particular purposes, for example from the domains of advertising, law, medicine, and education. Each chapter provides examples, exercises, and commentary designed to develop the analytical abilities needed in describing the characteristic forms and typical functions of different discourses. *Describing Discourse* provides the ideal entry into the study of discourse for students new to the subject. *Guide du datajournalisme* Collectif Eyrolles, Jonathan Gray, Liliana Bounegru, Lucy Chambers, Nicolas Kayser-Bril, 2013-08-22 Au travers d'expériences riches au sein de rédactions du monde entier des USA à l'Argentine en passant par la France ou l'Allemagne, cet ouvrage dresse un panorama des pratiques du datajournalisme aujourd'hui et donne des repères pour ceux qui veulent s'y lancer. *Red Queen* Juan Gómez-Jurado, 2023-03-14 Pacing of the breakneck variety.
