fundamental for understanding both the success and the nature of digital matchmaking Bergstr m also sheds light on the persisting inequalities of intimate life showing that online dating is neither free nor fair it has its winners and losers and it differs significantly according to gender age and social class Drawing on a wide range of empirical material this book challenges what we think we know about online dating and gives us a new understanding of who why and how people go online to seek sex and love Autocar ,2004 **Renault Scénic Service and Repair Manual** R.
