

Introduction

This high-quality audio system, protected by a Security Code, consists of an audio section, a CD changer*, a display, a remote control unit (the satellite) and loudspeakers which are arranged and directed to provide optimum sound distribution in the vehicle.

Important

- After a break in the power supply (battery disconnected, supply cable cut, etc.), if your radio is in coded mode you must enter the Security Code to be able to use it again (see 'Entering the code' under 'Security Code').
- For safety reasons you are advised not to make adjustments to the set when driving except for those that can be made using the satellite.

Security Code

As a means of deterrence, your set is delivered to you in coded mode. The Security Code system enables you to 'lock' the set electronically whenever the power supply is cut off (battery disconnected, fuse blown, etc.). The set will then stay silent. To make it operational you must enter the confidential code (4-digit number) of which you are the sole holder.

The Security Code is given to you by the supplying Mack Trucks dealer. He has a secure record of this code. Keep a safe note of the code. If you should ever lose it, contact the supplying Mack Trucks dealer.

Entering the code (after a break in the power supply)

1. Press the POWER key  to switch on the set. 'CODE' and then '0000' will appear in the display.
2. Adjust the flashing digit with the thumbwheel on the satellite.
3. Press the , (the lower key) on the satellite to confirm the digit and move onto the next.
4. When complete press the  key until you hear a bleep to validate the code.

Example

You want to enter the code 1352.

- a. Turn the thumbwheel until you see 1.
Press .
- b. Turn the thumbwheel until you see 3.
