Saving Amy English Edition:

Literature as Translation/Translation as Literature Christopher Conti, James Gourley, 2014-03-17 Broadly conceived literature consists of aesthetic and cultural processes that can be thought of as forms of translation By the same token translation requires the sort of creative or interpretive understanding usually associated with literature Literature as Translation Translation as Literature explores a number of themes centred on this shared identity of literature and translation as creative acts of interpretation and understanding The metaphor or motif of translation is the touchstone of this volume which looks at how an expanded idea of translation sheds light not just on features of literary composition and reception but also on modes of intercultural communication at a time when the pressures of globalization threaten local cultures with extinction The theory of ethical translation that has emerged in this context which fosters the practice of preserving the foreignness of the text at the risk of its misunderstanding bears relevance beyond current debates about world literature to the framing of contemporary social issues by dominant discourses like medicine as one contributor's study of the growing autism rights movement reveals The systematizing imperatives of translation that forcibly assimilate the foreign to the familiar like the systematizing imperatives of globalization are resisted in acts of creative understanding in which the particular or different finds sanctuary The overlooked role that the foreign word plays in the discourses that constitute subjectivity and national culture comes to light across the variegated concerns of this volume Contributions range from case studies of the emancipatory role translation has played in various historical and cultural contexts to the study of specific literary works that understand their own aesthetic processes and the interpretive and communicative processes of meaning more generally as forms of translation Several contributors including the English translators of Roberto Bolaño and Hans Blumenberg were prompted in their reflections on the creative and interpretive process of translation by their own accomplished work as translators All are animated by the conviction that translation whether regarded as the creative act of understanding of one culture by another as the agent of political and social transformation as the source of new truths in foreign linguistic environments and not just the bearer of established ones or as the limit of conceptuality outlined in the silhouette of the untranslatable is a creative cultural force of the first importance

comparison has been integral to this process from the start of the Christian tradition and is especially salient today. The emerging field of comparative theology in which close study of another religious tradition yields new questions and categories for theological reflection in the scholar's home tradition embodies the ecumenical spirit of this moment. This discipline has the potential to enrich systematic theology and by extension theological education at its foundations. The essays in *Comparing Faithfully* demonstrate that engagement with religious diversity need not be an afterthought in the study of Christian systematic theology; rather, it can be a way into systematic theological thinking. Each section invites students to test theological categories to consider Christian doctrine in relation to specific comparisons and to take up comparative study in their own contexts. This resource for pastors and theology students reconsiders five central doctrines of the Christian faith in light of focused interreligious investigations. The dialogical format of the book builds conversation about the doctrine of God, theodicy, humanity, Christology, and soteriology. Its comparative essays span examples from Hindu, Buddhist, Jewish, Muslim, Jain, and Confucian traditions as well as indigenous Aztec theology and contemporary spiritual but not religious thought to offer exciting new perspectives on Christian doctrine.

The Literary World, 1881 *Book News*, 1892 **Christian Register and Boston Observer**, 1927 **The Unitarian Register**, 1927 *The Jews of Iran* Hooman M. Sarshar, 2014-09-17

Living continuously in Iran for over 2700 years, Jews have played an integral role in the history of the country. Frequently understood as a passive minority group and often marginalized by the Zoroastrian and succeeding Muslim hegemony, the Jews of Iran are instead portrayed in this book as having had an active role in the development of Iranian history, society, and culture. Examining ancient texts, objects, and art from a wide range of times and places throughout Iranian history, as well as the medieval trade routes along which these would have travelled, *The Jews of Iran* offers in-depth analysis of the material and visual culture of this community. Additionally, an exploration of modern novels and accounts of Jewish Iranian women's experiences sheds light on the social history and transformations of the Jews of Iran from the rule of Cyrus the Great c. 600-530 BCE to the Iranian Revolution of 1978-9 and onto the present day. By using the examples of women writers such as Gina Barkhordar Nahai and Dalia Sofer, the implications of fictional representation of the history of the Jews of Iran and the vital importance of communal memory and tradition to this community are drawn out. By examining the representation of identity construction through lenses of religion, gender, and ethnicity, the analysis of these writers' work highlights how the writers undermine the popular imagining and imaging of the Jewish other in an attempt to create a new narrative integrating the Jews of Iran into the idea of what it means to be Iranian. This long view of the Jewish cultural influence on Iran's social, economic, political, and cultural development makes this book a unique contribution to the field of Judeo-Iranian studies and to the study of Iranian history more broadly.
