Media Firms Robert G. Picard, 2014-04-04 Media Firms presents studies applying the company level approach to media and communication firms. It explores differences among missions, strategies, organizational choices and other business decisions. Reviewing economic factors and pressures on media and communications companies, this book seeks to improve understanding of how these elements affect market and company structures, operations and performance of firms. The chapters written by leading scholars worldwide were selected from papers on the theme of media firms presented at the 5th World Media Economics Conference hosted by the Turku School of Economics and Business Administration and The Journal of Media Economics. The collected studies provide an overview of economic and related managerial issues affecting the structures of markets in which firms compete, the operations of media and communications firms and their financial performance. As a result it expands the discussion of economic issues traditionally associated with the field due to narrowed focus of initial books in media economics. It is hoped that this book will induce additional avenues of inquiry regarding such issues.

Press Radio and TV Guide Rachel Eddon, 2003 The A to Z of Australian Radio and Television Albert Moran, Chris Keating, 2009-08-04 Australians have become increasingly visible outside of the country as speakers and actors in radio and television. Their media moguls have frequently bought up foreign companies and people around the world have been able to enjoy such Australian productions as *The Flying Doctors*, *Neighbours* and *Kath and Kim*. The origins, early development and later adaptations of radio and television show how Australia has gone from being a minor and rather parochial player to being a significant part of the international scene. *The A to Z of Australian Radio and Television* provides essential facts and information concerning the Australian radio and television industry. This is accomplished through the use of a chronology, an introductory essay, a bibliography and hundreds of cross-referenced dictionary entries on directors,

producers writers actors television and radio series and television and radio stations
