

Two green parrots are perched on a thick, textured tree branch against a clear blue sky. The parrot on the left is facing the one on the right, with its beak open as if speaking or singing. The parrot on the right is facing back towards the first. Both have bright green plumage and pale pinkish-orange beaks.

Ndinga-Koumba-Binza, Sonja E Bosch, 2012-10-01 This book provides a broad overview of current work on South African languages language resources and language technologies While it provides a fairly comprehensive overview it also ties together the most recent knowledge state here and is therefore truly innovative The book is therefore informed by current international trends in the respective fields of science and feeds back into them There is absolutely no doubt that the book has an academic peer audience and is directed at specialists in the field Prof Axel Fleisch University of Helsinki Finland

Computers in Translation John Newton, 2002-09-11 Researchers have been attempting to develop systems that would emulate the human translation process for some forty years What is it about human language that makes this such a

daunting challenge While other software packages have achieved rapid and lasting success machine translation has failed to penetrate the worldwide market to any appreciable extent Does this merely reflect a reluctance to adopt it or does it signal a more fundamental and intractable problem Computers in Translation is a comprehensive guide to the practical issues surrounding machine translation and computer based translation tools Translators system designers system operators and researchers present the facts about machine translation its history its successes its limitations and its potential Three chapters deal with actual machine translation applications discussing installations including the METEO system used in Canada to translate weather forecasts and weather reports and the system used in the Foreign Technology Division of the US Air Force

Child Language Matthew Saxton, 2017-10-02 This is the best book on the market for taking students from how children acquire their first language to the point where they can engage with key debates and current research in the field of child language No background knowledge of linguistic theory is assumed and all specialist terms are introduced in clear non technical language It is rare in its balanced presentation of evidence from both sides of the nature nurture divide and its ability to make this complicated topic engaging and understandable to everyone This edition includes Exercises to foster an understanding of key concepts in language and linguistics A glossary of key terms so students can always check back on the more difficult terms Suggestions for further reading including fascinating TED Talks that bring the subject to life Access to Multiple Choice Quizzes and other online resources so students can check they ve understood what they have just read

Feminist Perspectives on Language Margaret Gibbon, 2018-12-14 The Feminist Perspectives Series seeks to provide concise accessible and engaging introductions to key feminist topics and debates The texts in the series are designed to be used on a wide range of courses exploring feminist issues and are written by experienced teachers who are also well known in their respective fields Each book in the series includes the most up to date statistics research data key sources and suggestions for further reading Feminist Perspectives On Language provides an accessible introduction to this complex area It redresses the balance of current feminist texts which tend to concentrate on discourse analysis and fail to connect with feminist thought in other disciplines such as sociology and politics The text is divided into two parts the first looks at language itself how we learn language exploring such questions as Does language free or trap us Does our language affect how we come to understand the world around us Is our language sexist If so does that reflect male dominance in society and many more issues Part Two explores questions of methodology and interpretation examining language in use communication styles and the analysis of conversation
