Article 12 of the United Nations Convention on the Rights of the Child upholds children's rights to express their views in matters that affect them and to have those views taken into consideration and acted upon that is actively included in decision making. A serious consideration of Article 12 involves two rights: the right to express a view and the right to have those views given due weight. In this volume we will share a compilation of research from Aotearoa New Zealand and beyond that aimed to access and listen to the views of students. We have brought together voices of students from different educational contexts seeking their perspectives on learning, wellbeing, disciplinary procedures, literacy intervention, and what makes schools good.

**Handbook of Prosocial Education** Philip M. Brown, Michael W. Corrigan, Ann Higgins-D'Alessandro, 2012-10-12

*Handbook of Prosocial Education* is the definitive theoretical, practical, and policy guide to the prosocial side of education, the necessary second side of the educational coin. Academic teaching and learning are the first side of education; however, academic success depends upon the structures and support of prosocial educational efforts from promoting positive school climate to fostering student and teacher development to civic literacy and responsible and critical citizenship participation. The *Handbook of Prosocial Education* chapters, written by highly respected researchers and outstanding educators, represent the wide range of research-based prosocial interventions from pre-school through high school. The chapters explore and explain how prosocial education helps teachers create effective classroom learning environments to support the development of the whole student. Principals encourage positive school climate and superintendents work to improve the health and well-being of their systems. As readers will learn, when done well, prosocial education develops the capacities and competencies of students, teachers, and school administrators that lead to a more autonomous, positive self-concept, greater sense of purpose, more socially responsible behaviors, and increased connections between families, schools, and communities. This book pulls together in one place, for the first time, the various threads that create the prosocial education tapestry, making a compelling case for the necessity of changing national educational policy that continues to be ever more oriented to only the academic side of the educational coin, thus jeopardizing the foundational and historic purpose of educating our children for their full human development and participation in our democracy.

*Educational Leadership and Administration: Concepts, Methodologies, Tools, and Applications* Management Association, Information Resources, 2016-10-12

The delivery of quality education to students relies heavily on the actions of an institution's administrative staff. Effective leadership strategies allow for the continued progress of modern educational initiatives. *Educational Leadership and Administration: Concepts, Methodologies, Tools, and Applications* provides comprehensive research perspectives on the multi-faceted issues of leadership and administration considerations within the education sector. Emphasizing theoretical frameworks, emerging strategic initiatives, and future outlooks, this publication is an ideal reference source for educators, professionals, school administrators, researchers, and practitioners in the field of education.

*Why Kids Love (and Hate) School* Steven P. Jones, Eric C. Sheffield, 2018-11-19

Some students enter classrooms with an "I dare you try to teach me" look on their faces, and

others bounce into class excited to learn and anxious to please the teacher We know we can't automatically blame teachers or schools when students don't want to learn But we also know that sometimes teachers and schools don't always set students up for success and they don't always help them love what they're learning Why Kids Love and Hate School Reflections on Practice investigates some of the school and classroom practices that help students love school and some that send students in the opposite direction Intended for classroom teachers teacher education students and school administrators chapters in the book investigate a variety of topics how schools can build effective school cultures the struggle students encounter in learning practices of other countries that help students love school testing practices that cause students to hate school and much more Perfect for courses in Introduction to Education General Methods Management Assessment Educational Research Educational Administration Leadership Teacher Leadership Curriculum Theory Curriculum Development *Studio Thinking 3* Kimberly M. Sheridan, Shirley Veenema, Ellen Winner, Lois Hetland, 2022-06-03

*Studio Thinking 3* is a new edition of a now classic text a research based account of teaching and learning in high school studio arts classes It poses a framework that identifies eight habits of mind taught in visual arts and four studio structures by which they are taught This edition includes new material about how the framework has been used since the original study with new perspectives from artist teachers who currently apply the Studio Thinking Framework in their own practice It also reviews how contemporary organizations educators and researchers outside the arts have utilized the framework highlighting its flexibility to inform teaching and learning The authors have added a new chapter on assessment to introduce the practical and thoughtful ways that teachers are using Studio Thinking to assess and evaluate students work working processes and thinking in the arts Praise for Previous Editions of Studio Thinking Winner and Hetland have set out to show what it means to take education in the arts seriously in its own right The New York Times This book is very educational and would be helpful to art teachers in promoting quality teaching in their classrooms School Arts Magazine Studio Thinking is a major contribution to the field Arts Learning Review The research in Studio Thinking is groundbreaking and important because it is anchored in the actual practice of teaching artists The ideas in Studio Thinking continue to provide a vehicle with which to navigate and understand the complex work in which we are all engaged Teaching Artists Journal **Leading Like a**
