*After the Education Wars* Andrea Gabor, 2018-06-12 The education wars have been demoralizing for teachers After the Education Wars helps us to see a better way forward Cathy N Davidson The New York Times Book Review After the Education Wars is an important book that points the way to genuine reform Diane Ravitch author of *Reign of Error* and *The Death and Life of the Great American School System* A bestselling business journalist critiques the top down approach of popular education reforms and profiles the unexpected success of schools embracing a nimbler more democratic entrepreneurialism In an entirely fresh take on school reform business journalist and bestselling author Andrea Gabor argues that Bill Gates Eli Broad and other leaders of the prevailing education reform movement have borrowed all the wrong lessons from the business world After the Education Wars explains how the market based measures and carrot and stick incentives informing today's reforms are out of sync with the nurturing culture that good schools foster and contrary to popular belief at odds with the best practices of thriving twenty first century companies as well These rich detailed stories of real reform in action illustrate how enduring change must be deeply collaborative and relentlessly focused on improvement from the grass roots up lessons also learned from both the open source software and quality movements The good news is that solutions born of this philosophy are all around us from Brockton Massachusetts where the state's once failing largest high school now sends most graduates to college to Leander Texas a large district where school improvement spurred by the ideas of quality guru W Edwards Deming has become a way of life A welcome exception to the doom and gloom canon of education reform After the Education Wars makes clear that

what's needed is not more grand ideas but practical and informed ways to grow the best ones that are already transforming schools

**Carmen Herrera** Dana Miller, Serge Lemoine, Gerardo Mosquera, Edward J. Sullivan, Mónica Espinel, 2016-01-01 L'artiste native de Cuba Carmen Herrera n'est en 1915 peint depuis plus de sept décennies mais ce n'est que ces dernières années que la reconnaissance pour son travail a projeté l'artiste vers la notoriété internationale. Ce beau volume offre le premier examen soutenu d'elle depuis le début de sa carrière en 1948 jusqu'en 1978 et s'étend sur les mondes de l'art de La Havane de Paris et de New York. Les essais considèrent les premières études de l'artiste, Cuba, son implication dans le Salon des Réalités Nouvelles dans le Paris d'après-guerre et sa sortie révolutionnaire de New York. Puis l'ouvrage situe son travail dans le contexte d'un art d'avant-garde latino-américain plus large. Un essai de Dana Miller considère le travail de New York d'Herrera depuis les années 1950 jusqu'à dans les années 1970 lorsque Herrera arrivait et perfectionnait son style de signature. Des photographies familiales personnelles des archives de Herrera enrichissent le récit et une chronologie traitant de l'intégralité de sa vie et de sa carrière présente des images documentaires supplémentaires. Plus de quatre-vingts œuvres sont illustrées sous forme de plaques de couleur. Ce livre est la représentation la plus tendue des travaux de Herrera ce jour d'après l'éditeur.

**Critical Issues in Democratic Schooling** Kenneth Teitelbaum, 2020-04-28 Focusing on a wide range of critical issues this book provides a comprehensive analysis of the linkage of different educational ideas, policies and practices to a commitment for democratic schooling. Informed by significant interdisciplinary research as well as by his own extensive professional experiences as a teacher, professor, department chair and dean, Teitelbaum examines contemporary concerns related to three broad areas: 1. teaching and teacher education, 2. curriculum studies and 3. multiculturalism and social justice. His approach is to integrate the current and the historical, the practical and the theoretical, the technical and the socio-political and the personal and the structural. With this volume, Teitelbaum considers how schools should be organized and funded, what they should teach and to whom, the role that teachers, students and parents should play in school life and the need and prospects for schools and teacher education programs that foster meaningful learning, critical reflection and social justice.

**The Mathematics Teacher**, 2007      **The Publishers Weekly**, 2005      **Immeasurable Outcomes** Gayle Greene, 2023-01-17 What is the purpose of education? The answer might be found in a Shakespeare class at a small liberal arts college. In this engaging account of teaching a Shakespeare class at a small liberal arts college, Gayle Greene illustrates what is so vital and urgent about the humanities. Follow along with Greene as she introduces us to her students and showcases their strengths, needs and vulnerabilities so we can experience the magic of her classroom. In *Immeasurable Outcomes*, Greene's class builds a complex human ecosystem that pushes students to think more deeply and discover their own interests and potential all while recognizing the inherent dignity in other people's views and values. Grounding her analyses in half a century of teaching, Greene pushes back against the demand for measurable student learning outcomes and the standardization imposed on K-12 schools in the name of reform. Instead, she draws her conclusions about education directly

from the students themselves Alumni testimonials describe the transformative power of a liberal arts education recounting how their experience of community and engagement has provided them the tools to navigate the uncertainties of a rapidly changing world while also inspiring the social awareness our democracy depends on Immeasurable Outcomes rejects claims that the liberal arts are impractical exposing the political agendas of technocrats and ideologues who would transform higher education into vocational training and programs focused only on profitability Greene reminds us that the liberal arts have been the basis for the most successful educational system in the world and provides a powerful demonstration that education at a human scale that is relationship rich and humanities based should be the model for education in the future **The**
