Koehler, Punya Mishra, Published by The AACTE Committee on Innovation and Technology, 2014-06-11. Published by Taylor Francis Group for the American Association of Colleges for Teacher Education. This Handbook addresses the concept and implementation of technological pedagogical content knowledge: the knowledge and skills that teachers need in order to integrate technology meaningfully into instruction in specific content areas. Recognizing for example that effective uses of technology in mathematics are quite different from effective uses of technology in social studies, teachers need specific preparation in using technology in each content area they will be teaching. Offering a series of chapters by scholars in different content areas who apply the technological pedagogical content knowledge framework to their individual content areas, the volume is structured around three themes: What is Technological Pedagogical Content Knowledge? Integrating Technological Pedagogical Content Knowledge into Specific Subject Areas; Integrating Technological Pedagogical Content Knowledge into Teacher Education and Professional Development. The Handbook of Technological Pedagogical Content Knowledge for Educators is simultaneously a mandate and a manifesto on the engagement of technology in classrooms based on consensus standards and rubrics for effectiveness. As the title of the concluding chapter declares: It's about time! The American Association of Colleges for Teacher Education (AACTE) is a national voluntary association of higher education institutions and related organizations. Our mission is to promote the learning of all PK-12 students through high-quality, evidence-based preparation and continuing education for all school personnel. **The Playwright's Process** Buzz McLaughlin, 2011-11-23. Here is the first and only manual for playwrights ever designed to draw directly from the wisdom of leading contemporary dramatists. Interwoven with hundreds of quotations from the author's own in-depth interview series at the Dramatists Guild in New York City, *The Playwright's Process* offers a fresh and lively discussion of the indispensable ingredients of strong dramatic writing. Every essential step the writer must take to create a well-written, stageworthy play is examined and explored. Also mining his own experience as a dramatist and a teacher of playwriting, author Buzz McLaughlin details the entire process of developing the kernel of an idea into a fully realized play, from the writer's very first jottings to the readings and workshops that lead to a professional production. Laying in the basic building blocks of dramatic structure, the exploration of character, the elements of good dialogue writing, and much much more, McLaughlin reinforces every lesson with the words of Edward Albee, Lee Blessing, Horton Foote, Athol Fugard, John Guare, Tina Howe, David Ives, Romulus Linney, Emily Mann, Terrence McNally, Arthur Miller, Marsha Norman, John Patrick Shanley, Wendy Wasserstein, Michael Weller, Lanford Wilson.
