Kyle,2019-05-16 This book is an attempt to address two struggles for theistic educators e g those who approach their educational vocation from a religious perspective whether they are working in secular or faith based institutions The first struggle is that while numerous guidelines on teaching excellence have been compiled the resulting checklists can contain more than a hundred criteria to consider This book therefore identifies the evidence based guidelines that are likely to have the highest impact on student achievement thereby empowering educators to focus their efforts in more substantial ways The second struggle is related to the lack of resources which can help educators to view and approach their vocation from a theistic perspective While there are texts that discuss the relationship of spirituality and or theology to education few to date have sought to bring evidence based educational literature into dialogue with the western Christian tradition and thereby develop a bottom up theology of education This book addresses this historical and theological gap Overall this book is therefore intended to not only provide theistic educators with high impact guidelines that can significantly improve the quality of education in their school systems but it also strives to do so from a thoroughly theistic perspective *Construire le sens de la qualité éducative en petite enfance* Nathalie Bigras,Lise Lemay,2026-02-26T00:00:00-05:00 Quels sont les modèles théoriques et conceptuels permettant de définir la qualité éducative Comment les personnes éducatrices les gestionnaires les parents et les enfants ainsi que les décideurs contribuent-ils à la qualité éducative Cet ouvrage explore des solutions pour accroître la qualité éducative **Crawling Behind: America's Child Care Crisis and How to Fix It** Elliot Haspel,2019 I've totally washed away the dream of having one more child I had never intended to be a stay at home parent but the cost of child care turned me into one We had to pull our toddler out of his program because we couldn't afford to have two kids in high quality care These are not the voices of those down on their luck but the voices of America's middle class The lack of affordable available high quality childcare is a boulder on the backs of all but the most affluent Millions of hard working families are left gasping for air while the next generation misses out on a strong start To date we've been fighting this five alarm fire with the policy equivalent of beach toy water buckets It's time for a bold investment in America's families and America's future There's only one viable solution Childcare should be free Classroom Assessment Scoring System, Manual Toddler Karen M.
