India Emerging Sandip Sen, Aarohi Sen, 2019-04-18 India like most democratic developing nations is prone to populist politics In the search of votes politicians look for popular solutions with mass appeal Some popular solutions benefit the poor some hurt the economy Poor economics leads to falling numbers Falling numbers get statistically captured as economic data And the impact of such economic data is immense This data can lift or crash currency markets stock markets affect credit ratings fuel inflation affect new investments and even result in mass layoffs However there is always a story behind the data These stories are guided mostly by executive decisions Some decisions are far reaching and beneficial to the masses some cater to political vote banks some are guided by increasing activism some serve the need for social justice some are aimed at environmental protection while some are simply driven by the greed of power or wealth This is the story of every regime The book narrates this compelling data story in a layman s language Even where data is wrong it leaves behind a tell tale mark of anomalies which trips the economy sooner than later Fudged

incorrect or lazily collected data is worse than genuine but unimpressive data as you do not know what to correct India Emerging thus captures this dialogue on the pros and cons of economic and political decisions that can be understood by the common voter who is neither an economist nor an academician

The Golden Tap - The Inside Story of Hyper-Funded Indian Start-Ups Kashyap Deorah, 2015-11-16 Ever wondered why global investors are willing to write million dollar cheques to young and inexperienced entrepreneurs Why companies are no longer judged on their ability to make profits Why the valuation of a startup can dwarf that of its well established counterpart Is it a bubble Or have the rules of the game changed Can these hyper funded technology driven companies become global superpowers Or is it an unsustainable phenomenon The Golden Tap gives you the answers In a remarkably honest no holds barred account Kashyap himself a serial entrepreneur demystifies the technology ecosystem that exists in India today From the origins of Amazon and Google to the remarkable growth of Flipkart and Ola he meticulously plots and chronicles a connected global sequence of events Set in this background he recounts his personal roller coaster of a life A story filled with ambition greed vanity fear and success that all young entrepreneurs can relate to Is this the business model of the future Or merely a game of poker played by master investors The answers pour out of The Golden Tap
