Religion Studies Paper 2 Memorandum November 2013:

Routledge Handbook of Nuclear Proliferation and Policy Joseph Pilat, Nathan Busch, 2015-05-15 This new Handbook is a comprehensive examination of the rich and complex issues of nuclear proliferation in the early 21st century. The future of the decades long effort to prevent the further spread of weapons of mass destruction is at a crossroads today. If international nonproliferation efforts are to be successful, an integrated multi-tiered response will almost certainly be necessary. A serious thorough and clear-eyed examination of the range of threats, challenges and opportunities facing the international community is a necessary first step. This Handbook, which presents the most up-to-date analysis and policy recommendations on these critical issues by recognized leading scholars in the field, intends to provide such an examination. The volume is divided into three major parts. Part I presents detailed threat assessments of proliferation risks across the globe, including specific regions and countries. Part II explains the various tools developed by the international community to address these proliferation threats. Part III addresses the proliferation risks and political challenges arising from nuclear energy production, including potential proliferation by aspiring states and nonstate groups. This Handbook will be of great interest to students and practitioners of nuclear proliferation, arms control, global governance, diplomacy and global security, and IR in general.

Europe in Emerging Asia Fredrik Erixon, Krishnan Srinivasan, 2015-05-20 In light of the Eurozone crisis and the growth of Asian economies, new challenges have emerged for the relations between nations in these regions. As the Asian consumer class grows and its culture globalizes, what does this mean for the export of Eurocentric values and norms? And what does the future hold for the economic, political and cultural policies between these two powerful regions? This book explores the relationship between European and emerging Asian economies as globalization changes the international economic and political landscape. Reflecting on past interactions and possibilities for the future, the book brings together Asian and European perspectives from former politicians, diplomats and academic experts to examine questions around trade and security, rights and climate change, identity clashes and the colonial legacy. The book is a timely consideration of highly topical questions that will shape international politics in the twenty-first century.

Hua,Ruihua Hu,2014-12-17 Given the impressive growth in East Asia after World War II initially led by Japan the region's development models have been scrutinized since the 1980s The shared Confucian cultural heritage strong government guidance and export led economies were often cited as contributors to the impressive growth However major changes have taken place in Asia on and around the turn of the century Japan experienced two decades of economic slow down while World Bank figures reveal that China is poised to become the largest economy in the world in 2014 overtaking the United States Bearing this in mind is it even possible to formulate an East Asian development model in the context of a shifting twenty first century And if so what is it This book addresses this issue by looking at the economic political and cultural perspectives of China Japan and South Korea focusing on dynamism and potential consensus regarding an East Asian development model The chapters offer a historical background to the East Asian development model as well as in depth case studies of each of the countries concerned to show that whilst the East Asian development model does have distinct characteristics as compared with other areas and other countries may draw some insights from the East Asian experience it is not a panacea that fits all circumstances and fits all times This book will be welcomed by students and scholars of Asian economics Asian politics international political economy and development studies **Islamic Ecumene** David S. Jones,2020-11-26 National identity and liberal democracy are recurrent themes in debates about Muslim minorities in the West Britain is no exception with politicians responding to claims about Muslims lack of integration by mandating the promotion of fundamental British values including democracy and individual liberty This book engages with both these themes addressing the lack of understanding about the character of British Islam and its relationship to the liberal state It charts a gradual but decisive shift in British institutions concerned with Islamic education Islamic law and Muslim representation since Muslims settled in the UK in large numbers in the 1950s Based on empirical research including interviews undertaken over a ten year period with Muslims and analysis of public events organized by Islamic institutions Stephen Jones challenges claims about the isolation of British Islamic organizations and shows that they have decisively shaped themselves around British public and institutional norms He argues that this amounts to the building of a distinctive British Islam Using this narrative the book makes the case for a variety of liberalism that is open to the expression of religious arguments in public and to associations between religious groups and the state It also offers a powerful challenge to claims about the insularity of British Islamic institutions by showing how the national orientation of Islam called for by British policymakers is in fact already happening *Courting Islam* Sean Oliver-Dee,2020-02-13 This book is an exploration of the perceptions of the American and British governments about Islam and Muslims based upon their experiences over the past two centuries It provides a response to the accusation that US and British governments are inherently anti Islamic and are seeking the destruction of that faith through their policy decisions The book uses primary documents from the US and British governments to examine the attitudes of politicians and officials in a variety contexts ranging from the War on Terror the Iranian Revolution and the Trojan Horse Scandal to the conversion of Alexander Russell Webb to Islam Islamic Finance and Mosque building In so doing it provides a wide angle lens on the diversity of issues and experiences which have shaped the views of officials and politicians about Islam [The Oxford History of Protestant Dissenting Traditions, Volume V](#) Mark P. Jews in Christian America Naomi Wiener Cohen, 1992 A driving force in the history of American Jews has been the pursuit of religious equality under law Jews reasoned that state and federal legislation or public practices which sanctioned religious specifically Christian usages blocked their path to full integration within society Always a small minority and ever fearful of the outspoken proponents of the Christian state nineteenth century Jews became ardent defenders of church state separation In the twentieth century Jewish defense organizations took a prominent role in landmark court cases on religion in the schools Sunday laws and public displays of Christian symbols Over the last two centuries Jews shifted from support of a neutral to all religions government to a divorced from religion government and from defense of their own interests to the defense of other religious minorities Jews in Christian America traces in historical context the response of American Jews to the issues presented by a Christian flavored public religion Discussing the contributions of each major wave of Jewish immigrants to the reinforcement of a separationist stand Cohen shows how Jewish communal priorities pressures from the larger society and Jewish Christian relationships fashioned that response She also makes clear that the Jewish community was never totally united on the goals and tactics of a separationist

posture despite the continued predominance of the strict separationists others argued the adverse effects of that position on communal well being and on the very survival of Judaism

Creatures of Cain Erika Lorraine Milam, 2020-11-03 How Cold War America came to attribute human evolutionary success to our species unique capacity for murder After World War II the question of how to define a universal human nature took on new urgency *Creatures of Cain* charts the rise and precipitous fall in Cold War America of a theory that attributed man's evolutionary success to his unique capacity for murder Drawing on a wealth of archival materials and in depth interviews Erika Lorraine Milam reveals how the scientists who advanced this killer ape theory capitalized on an expanding postwar market in intellectual paperbacks and widespread faith in the power of science to solve humanity's problems even to answer the most fundamental questions of human identity The killer ape theory spread quickly from colloquial science publications to late night television classrooms

political debates and Hollywood films Behind the scenes however scientists were sharply divided their disagreements centering squarely on questions of race and gender Then in the 1970s the theory unraveled altogether when primatologists discovered that chimpanzees also kill members of their own species While the discovery brought an end to definitions of human exceptionalism delineated by violence Milam shows how some evolutionists began to argue for a shared chimpanzee human history of aggression even as other scientists discredited such theories as sloppy popularizations A wide ranging account of a compelling episode in American science Creatures of Cain argues that the legacy of the killer ape persists today in the conviction that science can resolve the essential dilemmas of human nature The Blessings of Business Darren E. Grem, 2016 Tells the largely forgotten story of the historical ties between conservative Protestants and corporate America shows how business executives have been crucial to the growth of modern evangelicalism explains how evangelicals attached their social and religious aspirations to American corporate culture and the private sector <https://globaloup.com>
