Manufacturing Religion Russell T. McCutcheon,1997-06-19 In this new book author Russell McCutcheon offers a powerful critique of traditional scholarship on religion focusing on multiple interrelated targets Most prominent among these are the History of Religions as a discipline Mircea Eliade one of the founders of the modern discipline recent scholarship on Eliade s life and politics contemporary textbooks on world religions and the oft repeated bromide that religion is a sui generis phenomenon McCutcheon skillfully analyzes the ideological basis for and service of the sui generis argument demonstrating that it has been used to constitute the field s object of study in a form that is ahistoric apolitical fetishized and sacrosanct As such he charges it has helped to create departments jobs and publication outlets for those who are comfortable with such a suspect construction while establishing a disciplinary ethos of astounding theoretical naivete and a body of scholarship to match Surveying the textbooks available for introductory courses in comparative religion the author finds that they uniformly adopt the sui generis line and all that comes with it As a result he argues they are not just uncritical which helps keep them popular among the audiences for which they are intended but badly disserve but actively inhibit the emergence of critical perspectives and capacities And on the geo political scale he contends the study of religion as an ahistorical category participates in a larger system of political domination and economic and cultural imperialism **Jesus Against**

101 Good Reasons to Believe James D. Sideras, 2018-01-04 This book presents a strong case for the Christian faith by using scientific evidence and philosophical reasoning. Although an abundance of Christian apologetic textbooks exist, most are not easily accessible because they offer long and scholarly treatments of subject matter that may not appeal to lay readers. This book differs in two ways. First, it presents the case for Christianity in a friendly, scholarly prose which enables readers to plainly understand each reason to believe. Second, these reasons are concisely structured so that within minutes, readers can quickly examine each argument in light of the evidence presented. **101 Good Reasons to Believe** is essential reading for theists who wish to strengthen their faith in God and for nontheists who desire to critically investigate the truth claims of the Bible. This book includes topics such as astronomical evidence for the existence of God, evidence for creation and intelligent design, refutation of Darwinian evolution, the historicity of Jesus, why there is human suffering if God exists, the accuracy of the Bible, and evidence for heaven and hell. The 101 reasons presented make thought-provoking and compelling reading for scholars and non-scholars alike.

Leadership Michael Z. Hackman, Craig E. Johnson, 2013-04-03 Leadership is an integral component of the human experience and of practical importance to all. For nearly 25 years, the multiple editions of Hackman and Johnson's outstanding work have been the backbone of leadership courses at hundreds of colleges and universities. The authors extend this tradition of excellence in the Sixth Edition, which continues to serve as a valuable catalyst for generating new insights, debating controversial issues, and contributing to the ongoing dialogue on leading and following. Hackman and Johnson illuminate our understanding of leadership by approaching it as a communication-based activity. They artfully balance research and theory with practical, real-world suggestions for improving communication competence and leadership effectiveness in small group, organizational, and public contexts. The comprehensive Sixth Edition adds discussions of organizational politics, project leadership, executive-level teams, adaptive leadership, intergroup leadership, sensemaking, and in extremis leadership. Readers will also appreciate the expanded treatment of bad leadership, emotional competencies, followership styles, charisma, leader development, crisis leadership, and virtual team leadership. Case studies cover such timely issues as the pink slime controversy, the legacy of Steve Jobs, banning super-sized soft drinks, the scandal at Penn State University, and the Miracle on the Hudson. Abundant examples, case studies, self-assessments, and research highlights enhance the presentation. Moreover, wide-ranging application exercises offer

multiple opportunities for readers to review and apply the skills covered in the chapters

Religion Dans L'histoire
Michel Despland, Gérard Vallée, Canadian Corporation for Studies in Religion, 1992-03-03

The history of the concept of religion in Western tradition has intrigued scholars for years. This important collection of eighteen essays brings further light to the ongoing debate. Three of the invited participants, W. C. Smith, M. Despland, and E. Feil, have each previously written impressive books treating this subject; the last two acknowledged the impact and continuing influence of Smith's work. The Meaning and End of Religion: An introduction and a recapitulation of Smith's contribution as a scholar set the stage for a retrospective look at the published literature. Contributors then examine the transformation of words: the classical *religio* to the modern religion; particularities of religion in nineteenth-century France; Troeltsch's concept of religion; the study of religion from an Asian point of view; and the categorization of World Religions. The concluding essays elaborate contemporary anthropological, cross-disciplinary, semiological, deconstructive, and psychoanalytical methodological approaches to the concept and study of religion. Exploring critically different aspects of the concept and study of religion, these provocative essays typically reflect the methodological pluralism currently existing in the field of Religious Studies. Of interest to scholars and students alike, this collection also contains a complete bibliography of W. C. Smith's publications.
