Remembering C.S. Lewis James Como, 2009-12-04 In this intimate candid and sometimes surprising community biography of the celebrated author and Christian apologist twenty four men and women who knew C S Lewis as teacher colleague friend offer their reminiscences and impressions of the complex man behind the critical and academic acclaim Through their recollections we see Jack Lewis dazzling Oxford as he takes on atheists materialists and a host of other challengers Most poignantly we see him in everyday settings striding up and down the platform at a railroad station presiding over leisurely dinners with students expounding on the virtues of the pub The net effect of this collection said the Catholic Review is to make us feel that we know Lewis as well as his friends And to quote the New Yorker The heterogeneity of the contributors assures a variety of Lewises but certain traits appear in all these accounts intelligence imagination gusto a sense of fun and most frequently magnanimity An unexpected delight Washington Post A grand banquet of personal insights San Diego Union An invaluable indeed an indispensable addition to the burgeoning sphere of Lewis scholarship Joseph Pearce Author C S Lewis and the Catholic Church

teeming tunic clad crowds Selective and misleading this vision may be but it speaks to the continuing importance these ancient cities have had in the centuries that followed and the extent to which they define the period in subsequent memory Although there is much that is mysterious about them the cities of the Roman Mediterranean are for the most part historically known That the names and pasts of these cities remain known to us is the product of an extraordinary process of remembering and forgetting stretching back to antiquity that took place throughout the former Roman world This volume tackles this subject of the survival and transformation of the ancient city through memory drawing upon the methodological and theoretical lenses of memory studies and resilience theory to view the way the Greco Roman city lived and vanished for the generations that separate the present from antiquity This book analyzes the different ways in which urban communities of the post Antique world have tried to understand and relate to the ancient city on their own terms examining it as a process of forgetting as well as remembering Many aspects of the ancient city were let go as time passed but those elements that survived that were actively remembered have shaped the many understandings of what it was In order to do so this volume assembles specialists in multiple fields to bring their perspectives to bear on the subject through eleven case studies that range from late Antiquity to the mid twentieth century and from the Iberian Peninsula to Iran Through the examination of archaeological remains changing urban layouts and chronicles travel guides and pamphlets they track how the ancient city was made useful or consigned to oblivion

Remembering Home in a Time of Mobility Maja Mikula, 2017-06-23

Memory nostalgia and melancholy have attracted considerable scholarly attention in recent decades Numerous critics of globalisation transnationalism and cosmopolitanism have posited an overwhelming feeling of homelessness not only among people who have been displaced from their original home lands but also among those who feel estranged from their places of origin due to rapid social change or environmental decline Arguably homesickness is prevalent in today s developed world and can be and sometimes indeed is felt even for times and places unrelated to someone s personal roots Memory has been mobilised to justify recent conflicts to question mainstream interpretations of past events or to demand compensation for the suffering of earlier generations Nostalgia has been employed as a utopia in reverse revealing more about our unattainable ideal present than about the elusive lost past it invokes A corollary of nostalgia in the late modern politics of loss melancholy has been a way of dis identifying from both the horrors of recent history and the growing insecurities of the present The volume raises complex questions related to the ways people have coped with displacement and time space compression arguably the two most manifest symptoms of late modernity How do we grapple with the traumatic experience of the loss of home What strategies do we use and what is their underlying politics How do they intersect with identity positions such as gender class and sexuality How might they contribute to the preservation of national cultures How has our understanding of home changed in a time of mobility and flow Spanning multiple Eurasian and Northern American cultural contexts the book is of interest to an international academic readership within the fields of cultural studies memory studies gender studies

Remembering the Past in Contemporary African American Fiction

Keith Byerman, 2006-05-18 With close readings of more than twenty novels by writers including Ernest Gaines Toni Morrison Charles Johnson Gloria Naylor and John Edgar Wideman Keith Byerman examines the trend among African American novelists of the late twentieth century to write about black history rather than about their own present Employing cultural criticism and trauma theory Byerman frames these works as survivor narratives that rewrite the grand American narrative of individual achievement and the march of democracy The choice to write historical narratives he says must be understood historically These writers earned widespread recognition for their writing in the 1980s a period of African American commercial success as well as the economic decline of the black working class and an increase in black on black crime Byerman contends that a shared experience of suffering joins African American individuals in a group identity and writing about the past serves as an act of resistance against essentialist ideas of black experience shaping the cultural discourse of the present Byerman demonstrates that these novels disrupt the temptation in American society to engage history only to limit its significance or to crown successful individuals while forgetting the victims
